## Soviet Makes Appeal For U.S. Friendship

By PRESTON GROVER

MOSCOW (AP)—The Soviet Union published an appeal for friendship with the United States, Britain and France today, within 24 hours of opening the big Communist party congress.

The appeal was one of the many slogans the country publishes each year in advance of the Nov. 7 celebration of the anniversary of the 1917 Bolshevik Revolution.

## Cost Is \$60,000 For Colleges Outside of County

Ulster County taxpayers must pay over \$60,000 for the county share of costs for county residents attending community colleges outside the county for the 1961-62 school year.

This revised figure was released today by the Citizens Advisory Committee for a community college. The increase over the \$55,700 estimate first released is due to the fact that the county share of operating costs at both the Dutchess and Orange County Community Colleges has been increased 25 percent for this year and an increase in the number of student residence certifications for students to enroll in community colleges elsewhere.

## Urge Study of Facts

The Advisory Committee urged that careful study be given to all of the facts involved and that every eligible voter in Ulster County be ready to vote on Local Question "A" which will appear on the general election ballot November 7. Local Question "A" is the title of the proposition relating to the establishment of a two-year community college in Ulster County.

The Advisory Committee also reported that speakers, on the question of establishing a community college in Ulster County, have been scheduled at 21 meetings. All have been requested by various organizations. They include meetings in Ellenville, Kerhonkson, Phoenicia, Saugerties, Port Ewen, Woodstock and Kingston.

## Oust Peace Corps Demand Is Caused by Lost Postal

IBADAN, NIGERIA (AP)—A postcard that went astray has given the American Peace Corps its first black eye in the field.

Nigerian university students demanded Sunday that the corps unit sent to teach Nigerians be expelled because of criticism of primitive living conditions in this year-old African republic written by an enthusiastic—but "thoughtless"—girl in the group.

Her postcard home, dropped accidentally on the campus, stirred 1,000 students at Ibadan University College to an angry demonstration denouncing the American volunteers as "agents of imperialism."

Margery Michelmore, 23, Smith College honor graduate from Foxboro, Mass., quickly apologized to the university authorities for writing the "thoughtless card" and offered to resign from the corps in an attempt to quiet the uproar.

Peace Corps Director Sargent Shriver said in Washington he talked to the Nigerian ambassador and "he did not seem disturbed. He said it was the type of thing you could expect in this kind of operation, and I agreed with him."

The anti-American demonstration was organized after someone reportedly had found on the campus grounds the postcard that Miss Michelmore had written to her parents. Everyone except us

## Kerhonkson Has 2 Fires On Sunday

One of two fires which broke out within 12 hours of each other in the Kerhonkson area Sunday and was battled in vain for six hours by volunteer fire-fighters from five communities totally destroyed a two-story frame farmhouse and all its contents on Foordmor Farms.

In the second blaze which started about 12 hours after the Foordmor Farms fire, damage was done to the home of Duane Kofod, administrator at Veterans Memorial Hospital in Ellenville.

The old house, occupied by two families who work on Foordmor Farms, owned by Howard Anderson of Accord, was a total loss. Anderson today estimated his loss in excess of \$20,000 and said the two families were able to save virtually nothing so quickly did the fire spread.

A delay in notifying the Kerhonkson Fire Department of the blaze gave the flames about a 20 minute start, according to Anderson. Kerhonkson Chief Emmanuel Samuels said when he and his apparatus arrived on the scene at 8:59 a. m. flames were pouring from both ends of the building. He called Mutual Aid for assistance from Wawarsing, Napanoch, Stone Ridge and Accord and 12 pieces of apparatus battled the blaze. Firefighters, Samuels added, were hampered in their efforts to get at the flames, by brick between the studs.

Only portions of the structure were left standing and fire officials said it was a total loss.

**Possessions Lost**  
The occupants, Mr. and Mrs. Benjamin Bell and three small sons, aged 2, 3, and 4, and Mr. and Mrs. Gordon Mills and daughter, aged 3, escaped in plenty of time, but were unable to save anything except the clothing which they were wearing at the time.

Chief Samuels said that the Hurley Fire Department, called through Mutual Aid, stood by at Kerhonkson during the blaze.

Ulster County Fire Coordinator Winfred Snyder was at the scene and Deputy Co-ordinator, the Rev. David Arnold of Stone Ridge, arrived as soon as church services were over.

**Flames Under Eaves**  
Chief Samuels said Mrs. Kofod smelled smoke and went outside and discovered flames under the eaves of the building in the second fire. The Kofods partially extinguished the fire with a garden hose, but when the Kerhonkson volunteers arrived, some of the shingles on the roof started to burn. Chief Samuels called aid from Wawarsing and the firemen kept the blaze confined to the attic. The house suffered only smoke and water damage, which he said was kept to a minimum.

## Rocky Calls for Voluntary Shelters in All Buildings

ALBANY, N.Y. (AP)—Gov. Rockefeller, dropping the mandatory approach he once advocated, called today for a voluntary program for construction of fallout shelters in every home and building in the state.

The plan, prepared for presentation to a meeting of The State Defense Council, was aimed primarily at encouraging the building of family shelters.

The governor's office refused to divulge details of the proposal until the Defense Council had seen it. The council is charged with protecting the health and safety of the population in a military emergency.

The Republican governor had indicated earlier his program

## Cuban Refugees Escape Gunshot

MIAMI, Fla. (AP)—Forty-five Cuban refugees, 18 of them children, arrived in Miami today after a Coast Guard rescue off the Bahamas island of Cay Sal with a U.S. destroyer standing by.

The destroyer sped to the scene after reports that a Cuban boat had fired on the small, leaking craft bearing the refugees. But refugee arrivals in Miami said they heard no shots.

"We heard no shots, but later heard rumors that there had been some," was the unanimous report of six women aboard.

**21 Men Detained**  
The women and children were taken to a Miami hotel. The 21 men aboard were detained by immigration authorities for questioning.

P. S. Willmore, chief immigration official in Key West, and Sir Robert Stapledon, governor of the British Bahamas, issued brief statements.

The British governor, who sent policemen to the tiny island to investigate, said shots had been exchanged between "two Cuban fishing boats" just offshore after the refugees landed.

Willmore told newsmen: "I spoke with the Cuban political refugees, and they said that there were not shot at and that there was no shooting in their vicinity while they were on Cay Sal or while they were in the boat."

**Calls for Help**  
Cay Sal is leased by Clarence B. Moody, 63, owner of a Miami dredging business and once a builder of homes on islands near Miami. Moody said that he had notified the Coast Guard Saturday morning to pick up the refugees after receiving a radio-telephone call from a caretaker on the island. Then in the afternoon, Moody said, he received another call from the caretaker, Cleo Sears.

"This time he said to me, 'A Cuban boat is firing on the refugees on shore. We are desperately in need of help.' I notified the Coast Guard," Moody said.

The Coast Guard boat and a destroyer, already en route, were told to wait offshore Saturday night. The pickup was made the next morning; Moody flew to the island.

**Calling Off Big 4 Parley Underlines Difficulties**  
By LEWIS GULICK  
WASHINGTON (AP)—Cancellation of a proposed Western Big Four meeting underlined today the difficulties the Allies will face among themselves if they ever get into negotiations with Russia over Berlin.

The proposed meeting of senior diplomats from the United States, Britain, France and West Germany in London this week to work out a common negotiating position had been tentatively agreed on, a State Department spokesman said Saturday.

Sunday the spokesman said there had been no decision on the high-level parley and, instead, the Big Four ambassadorial group which has been meeting here reg-

## City Registration Reported As 13,594 for Nov. Voting

A final city registration for the Nov. 7 election of 13,594, after Saturday's totals, was 330 over that of the last mayoral election year of 1959, but it was 1,639 under the presidential election year of 1960.

Saturday's registration of 4,634, however, was 536 under the fourth-day total of 5,170 in 1959. This year's total was 627 under the 1957 mayoral election year in

## Troops to Viet Nam Only as Last Resort

HONOLULU (AP)—Gen. Maxwell D. Taylor apparently would recommend sending U.S. troops to South Viet Nam only as a last resort to save that key Southeast Asian nation from communism.

This was the indication today as President Kennedy's personal military adviser paused here for a day of conferences before resuming his fact-finding mission taking him halfway around the world.

Taylor, who flew in late Sunday with 15 special-aides, planned to talk with Adm. Harry D. Felt about current conditions in South Viet Nam, which is under increasing red guerrilla assault.

**Depends on Study**  
Felt, U.S. commander for the Pacific, has just returned from a swing through South Viet Nam, UAW, Harvester Co. Reach an Agreement

CHICAGO (AP)—The United Auto Workers and the International Harvester Company reached a tentative agreement on a new three-year contract near midnight Sunday, about seven hours before a scheduled strike by 32,000 workers at company plants in 14 cities.

Spokesmen for the company and union said the new contract is subject to ratification by the union's Harvester Council and by the UAW locals. They said it provides for an annual wage increase of 2 1/2 per cent or 6 cents an hour, whichever is greater, and other increased benefits.

Under the old contract, which expired Oct. 1, hourly wages for production workers, averaged \$2.08.

**Both Drivers Perish**  
Mrs. Nellie Smith, 53, of Withersbee, and Donald R. Hutchins, 22, of Otter Lake, Mich., were killed when the cars collided on a curve Saturday. Mrs. Smith's son, Richard, 16, and Peter Vanderhoof, 21, of Westport, died Sunday in a Ticonderoga Hospital.

Another two-car crash at Gaines, took the lives of Leslie S. Cole, 41, of Niagara Falls, and Robert Coville, 25, of Albion, Saturday.

James Sweet, 22, and Claude Joannette, 23, both of North Lawrence, St. Lawrence County, were killed Sunday night when the automobile in which they were riding crashed.

## Economic Blow Is Stressed

Gen. Clay Is Not Stopped in East

BERLIN (AP)—East German police threw tear gas grenades at a West Berlin crowd today after five East Berliners jumped from a second-story window of a border house into a sand-filled truck.

The incident occurred at Bernauerstrasse. There, apartment houses on one side of the street are in the Soviet sector, while the sidewalks below are in West Berlin.

**Truck Is Surprise**  
At around noon, the truck roared up to one apartment house. Seconds later three men and two women jumped into it. West Berliners standing nearby cheered. The Vopos—East German people's police—were taken by surprise but after realizing what happened tossed several tear gas grenades into the West Berlin crowd.

West Berlin police said the two women suffered minor injuries in the jump.

**Economic Blow**  
The East Germans, meanwhile, acknowledged that mobilization of the workers' militia to man the barricades has dealt a serious economic blow.

Red economic chief Alfred Neumann told the party's Central Committee Sunday "the withdrawal of workers from a factory for outside activities not connected with their trade must be extensively stopped."

Neumann said industrial output was up three billion marks—\$714 million at the official rate of exchange. But he said overall production was falling short of targets fixed in the regime's seven-year economic plan.

The brown-uniformed militiamen played a large role in building the wall dividing East and West Berlin when the barricades began going up Aug. 13. But early this month they seemed to disappear—apparently back to the factories.

Despite the close police guard on the Berlin border, Americans were allowed to pass into East Berlin.

**No Police Action**  
Gen. Lucius D. Clay, in a demonstration of Western rights to move anywhere in the divided city, toured the Communist sector Sunday night. President Kennedy's personal representative here was accompanied by Maj. Gen. Albert Watson II, the U.S. commandant. Police made no attempt to interfere with them.

**Women Turned Back**  
Five women employees of the U.S. mission in Berlin, riding in a private American car bearing Army license plates, were turned back twice at the Friedrichstrasse checkpoint when they refused to show their identity papers to East German guards. Lt. Thomas S. Bainbridge of Detroit, Mich., showed up in uniform, took over the wheel of the car with the women as passengers and rode through.

Four other Americans—three civilian teachers and a U.S. State Department official traveling alone—were held up returning from visits to East Germany when they declined to show their papers. Then without explanation, they were allowed to pass.

The Western Allies contend that only the Soviet Union has the right to check cars with Allied military registrations.

## Troopers Search Wooded Area for Killer Suspect

ELMIRA, N.Y. (AP)—Squads of state troopers scoured woods today for an unemployed factory worker wanted for questioning in a double shooting at an abandoned quarry here.

The bodies of James H. Marshall, a 17-year-old high school student, and William P. Falls, 23, both of Elmira, were found Saturday about 90 feet apart in the quarry, which is often used for target practice by shooters.

Falls had a police record, detectives said. A 17-state alarm was flashed for Philip T. McGann of Elmira after police reported finding a knapsack with his name on it near the quarry. However, McGann was believed on foot, police said, since he didn't own a car. One of two rifles found in a car at the quarry was believed to be owned by McGann, state police said. The car was registered to Falls' wife.

Both victims died of rifle wounds and had probably been dead since Friday, a Chemung County coroner said. Marshall, shot in the chest, was found against a tree on a bluff over the quarry. Falls was on the floor of the quarry, and had been shot in the chest and stomach. Falls and Marshall were last seen Friday together. Dist. Atty. Paul McCabe described the two as "acquaintances" and added that their relationship with McGann was not known.

# Private Polls Encouraging Democrats Against Mitchell

WASHINGTON (AP) — Encouraged by their private polls, Democrats are putting new punch into efforts to defeat Republican nominee James P. Mitchell in the New Jersey governor's race.

Mitchell, former secretary of labor in the Eisenhower Cabinet, generally is regarded as the favorite over Democrat Richard J. Hughes in one of the few contests that hold national significance in this year's elections. Democratic Gov. Robert B. Meyner has held the office since 1953 and was not eligible to run again this year.

Democrats at national headquarters here are talking more and more confidently about the possibility of a Nov. 7 victory which would be a blow to Republican revival hopes in the industrial East. They say their polls show Hughes making significant gains.

If Mitchell can win the New Jersey governorship, the Republicans hope to go into the 1964 presidential election with New York and New Jersey state house control, which carries with it organizational benefits denied to the outs.

The Republicans already have the Massachusetts governorship, which they seek to hold next year. Gov. Nelson A. Rockefeller of New York also will be a candidate for reelection next year. There will be strong Republican bids in 1962 to turn the Democrats out in Pennsylvania and Connecticut.

In 1960 President Kennedy carried Massachusetts by more than a half million votes. But he won New York, New Jersey, Pennsylvania and Connecticut, representing 101 electoral votes, by relatively narrow margins. All had Democratic governors except New York, where Kennedy got 52.6 per cent of the popular vote. His total in New Jersey was only 50.4 per cent of the vote. It was 51.2 per cent in Pennsylvania and 53.7 per cent in Connecticut.

## Auburn Prison Blast

AUBURN, N.Y. (AP) — An explosion at Auburn State Prison today destroyed a big oven where the prisoners bake motor vehicle license plates. Two inmates suffered minor injuries.

The oven, about 30 by 10 by 15 feet, was in a shop that employs approximately 100 to make license plates.

Fire Chief Luke Bergan said paint fumes might have been responsible for the blast. All the city's fire-fighting apparatus was sent to the scene. The fire was confined to insulation in the oven.

## Former Sheriff Dies

WATERLOO, N.Y. (AP) — Warren Walter, 71, a former Seneca County sheriff, died today. He had been cited by the New York State Republican Committee as the state's oldest county committeeman at point of service.

# Six Persons Hurt In Two Accidents, One Driver Held

Six persons were reported injured in two three-car, city mishaps Saturday night, one seriously in one of them, and a driver was arrested.

The arrest followed a collision on Broadway near Pine Grove Avenue in which five were injured. Reported in serious condition at Kingston Hospital this afternoon was Marie Anderson, 81, of 812 72nd Street Brooklyn, who, police said suffered injuries of the head, left forearm and a possible concussion.

Joseph Washington, 38, of 236 East Union Street, charged with driving while intoxicated, police said, had driven into a stopped car and forced it against a parked vehicle. He told City Judge Aaron E. Klein today that he would obtain counsel and hearing was adjourned to Tuesday night. He is under \$100 bail.

The car which had been struck after it was stopped, police said, was driven by Victor Anderson, 51, of the same Brooklyn address. Also reported injured were: Edith Anderson, 48, same address, nose and chest injuries; Luth Moore, 55, of Mountain View Road, Hurley, who, the report said lost consciousness, and Sven Moore, 61, of the same address, who suffered a neck injury. James Chaffin, of Meadow Street, who, police said, was in the moving car, reported injuries of the forehead and left arm.

Others injured were reported in fair condition today. All were taken to the hospital by Fatum ambulance.

Police listed Elmer C. Havens, of 123 Greenkill Avenue, as owner of the parked car. Sgt. William Snyder, with officers Raymond Wells and Thomas Carpio investigated the mishap which was reported at 7:28 p. m.

Charles Rhymer, 45, of 32 Prince Street, reported a neck injury after the other accident later Saturday at Broadway and East O'Reilly Street.

Police said a car driven by Eleanor Martin, 39, of Aldh Drive, St. Remy, headed up Broadway, came in contact with the stopped Rhymer car and the latter struck one driven by Helen Kastshak, of 4 Corwin Place, Lake Katrine.

HELMSTEDT, Germany (AP) — West Germany border officials estimated today 250,000 Eastern troops will take part Tuesday in the key phase of a huge Warsaw Pact maneuver in East Germany. The military exercise, involving soldiers of the Soviet army, East Germany, Poland and Czechoslovakia, is said to be the largest ever held in East Germany.

## Javits Predicts Victory for GOP

RYE, N.Y. (AP) — Sen. Jacob K. Javits, R-N.Y., reporting "self-doubt" on the part of the Kennedy administration, predicts Republicans will score "marked successes" in the 1962 congressional elections.

He also says the world situation is too perilous for any Republican to write off the presidential election of 1964 as a lost cause.

Javits told the Rye city GOP committee at an outing Sunday that Republicans had displayed "fine bipartisanship" on the Cuban situation, the crisis regarding Berlin and the resumption of nuclear testing.

## 20 Wheat Farmers Sign to Participate in 1962 Program

A total of 20 wheat farmers in Ulster County have signed up so far to participate in the 1962 Wheat Stabilization Program, according to E. M. Wood, chairman, County Agricultural Stabilization and Conservation Committee.

The signup period for wheat producers opened October 2 and will continue in Ulster County until October 31.

The 1962 Wheat Stabilization Program provides for a 10 per cent reduction in wheat acreage, calculated from the national allotment of 55 million acres. This reduction is already made in the farm allotments established before the recent marketing quota referendum.

Each farmer in the county who has a 1962 wheat allotment and who planted more than 15 acres in one of the past three years have received information showing rates of payment they may earn by diverting wheat acreage to conservation uses. One rate is for the required, or minimum, diversion. A second higher rate will apply to additional acres which they divert to conservation uses.

The ASC Committee is encouraging farmers to divert additional wheat acres under the program, above the minimum 10 per cent reduction reflected in their 1962 allotments. They list six reasons why such additional diversion is attractive to producers.

Further information about the program can be secured from the local ASCA Office, 54 John Street, Kingston.

# Woman Enrolled In Peace Corps To Ease Tension

BOSTON (AP) — The father of a young woman Peace Corps member whose postcard caused an uproar in Nigeria says his daughter entered the corps "to help the country and ease world tensions."

A postcard Margery Michmore, 23, had written in Nigeria and intended to send to a friend in this country, mentioned poverty and squalor in Nigeria.

It drew strong criticism from African students and a demand that the Peace Corps get out of Nigeria.

The young woman's father, Howard Michmore of Foxboro, a business executive, said his daughter "was brought up around Foxboro and Boston, so how could she know what real poverty was like?"

Miss Michmore is a 1960 graduate of Smith College.

"She just wanted to help the country and ease world tensions," her father said. "It was what she wanted to do. I had no objections."

## Control Meeting Scheduled on Alfalfa Weevil

An alfalfa weevil fall control demonstration meeting will be held at the Victor McCord farm on the Albany Post Road at Gardiner on Friday, October 20, at 1:30 p. m.

There will be a discussion on materials, costs, history of insect and demonstration of the use if the airplane to apply Dieldrin 10 per cent granular material, Associate County Agent Robert D. Guzewich, reports. Experimental and grower use of Dieldrin and Heptachlor has given excellent control of alfalfa weevil adults where fall application has been made. Label clearance has been granted for use of both of these materials in the fall of the year.

Growers of alfalfa are invited to attend the demonstration and see this forage insect control demonstration.

## Saugerties Jaycee To Address P-TA On County College

George Washington School P-TA will hold its first meeting of the 1961-62 school season Tuesday evening at 7:30 at George Washington School in the auditorium. At this meeting the parents will have an opportunity to meet the teachers.

Guest speaker will be Richard Cyr who will speak on the subject "Community College." Cyr is internal vice president of Saugerties Junior Chamber of Commerce. Originally from Baltimore, Md., he attended Eastern University in Maryland and received a BS Degree in accounting. Cyr lived in Kingston in 1937 for a year, then was with Sage Site in Montgomery, Alabama for a year. He has been back in Kingston area since 1959 and is presently in the employ of IBM.

Cyr has done much work with the Boy Scouts and is safety and health commissioner of the Saugerties District Council and has also done work with the Cub Scouts. He resides with his wife and six children in Saugerties.

A large attendance is anticipated at the meeting, since all parents are interested in furthering the education of their children and the subject of Cyr's talk is of particular interest this fall when the Community College referendum will be presented to the voters in November.

## In Running Mood

SANTA FE, N. M. (AP)—On the day New Mexico candidates filed for office, an unshaven, shabbily dressed little man sidled up to one of the windows in the

Capitol where officials were accepting forms from the candidates, and asked: "Is there anything open where an unemployed man like me can run against a couple of people?"

## New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas—For years "they said it couldn't be done." But now a Texas firm of laboratory consultants has developed a treatment that is not only stopping hair loss...but is really growing hair!

They don't even ask you to take their word for it. If your symptoms indicate that the treatment will help you, they invite you to try it for 32 days, at their risk and see for yourself! Naturally, they would not offer this no-risk trial unless the treatment worked. This is all the more remarkable in light of the fact that the great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped. But how can any man or woman be sure what is actually causing their hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR hair loss.

Actually, there are 18 scalp disorders that can cause hair loss. No matter which one is the cause of your hair loss, if you

wait until you are slick bald and your hair roots are dead, you are beyond help. If you still have hair (or at least some fuzz) on top of your head, and would like to stop your hair loss and grow more hair...now is the time to act.

Loesch Laboratory Consultants will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them information to help them analyze your problem. This information should include how long your hair has been thinning, and whether or not you now have or ever have had any of the following conditions: Do you have dandruff? Is it dry or oily? whether your scalp erupts in pimples or other irritations, does your forehead become oily or greasy? does scalp itch and how often? and any other information you feel might be helpful. All letters will be answered promptly. Send the above information, and your name and address to Loesch Laboratory Consultants, Box 66001, Houston 5, Texas.—Adv.

## Location: Someone's Cellar Cast: Bank Trustees

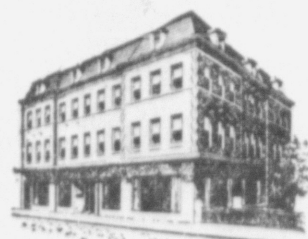

What could be the setting for an old fashioned melodrama proves to be an everyday occurrence for trustees of the Ulster County Savings Institution

These men are appraising a home that someone wants to buy and their work will facilitate processing of the mortgage.

It's important to note that there is *no fee* for such an appraisal regardless how dusty the cellar is or how far the trustees have to travel. It's simply another U.C.S.I. service.

If you'd like a home of your own—drop by and talk to us. You'll be glad you did!

KINGSTON, NEW YORK, OCTOBER 16, 1961

NATIONAL NEWSPAPER WEEK

This year's observance of National Newspaper Week, highlighting everybody's newspaper to everybody, is launched under the apt banner, "Your Newspaper—Heritage of Truth, Frontier of Freedom."

Nowhere more in America, than in Hometown America, is this slogan so true. For it was the early newspapers—single sheets at first—which sprang from the grass roots of this nation, which heralded the story of Truth and became our first Frontier of Freedom.

Let's focus the spotlight specifically on Hometown America, where the local paper is most read. They are all small towns which may be rural, urban or suburban. They are the hub, the trading centers of the areas which surround them. There are literally thousands of these small towns. By definition each is small but put them all together and you have more than half of the population of the United States.

To be exact, there are 99,524,612 people who call these towns Home. And they really are prosperous. According to the best authorities, they have a total collective income of \$157,217,000,000. That is 47 per cent of the total national income.

Last year these folks made retail purchases which amounted to the staggering figure of 86 billion, 321 million dollars. That figure represents 40 per cent of the total retail sales in this country.

Most of that tremendous spending, which helps materially to keep this country prosperous, is generated by the advertising which appears in Hometown newspapers.

The Hometown newspapers actually are the basic advertising medium for these 99 million folks. These papers get into some 27 million homes.

There isn't much doubt about the fact that the strictly local newspaper, the Hometown newspaper, still is and always will be the best reading buy in town.

Pravda gave the Kennedy U.N. address only a few words. Red newsmen don't have freedom of the press but they have unlimited "freedom of the squeeze."

AN OPPORTUNITY MISSED

Too many foreign students enrolled in our colleges and universities are choosing to remain here, instead of returning to help their countries achieve cultural, economic and political reform. Not that they are unwelcome to remain as citizens. But back in their native lands they could be a real force for strengthening the Western ideology against the inroads of the Communists.

We are spending a lot to send our Peace Corps recruits to convert underdeveloped lands to democracy. That is worthwhile. But why should not similar use to made of the young trainees from abroad studying here? Why not require—or at least urge—them to return, after completing their studies here, for at least a brief tour of missionary work similar to that we require of our own Peace Corps?

It might take some dickering. Most of these students are required, under laws of their own lands, to return home permanently after finishing their schooling here. Actually a lot of them remain here, and it is reported that in some cases we connive at premitting this.

Their native countries do not like that, understandably. But they might be willing to compromise. It might be agreed that if the students had completed their education here and we then send them home, they would be allowed—after an interval of a few years—to choose their place of permanent residence.

Some such arrangement might pay substantial dividends. Thousands of these foreign youths studying here are far more familiar with the language and the political and economic needs of their homelands than members of the Peace Corps can hope to be.

'These Days'

By GEORGE SOKOLSKY  
CROSBY VS. HOOVER

It takes no courage to attack J. Edgar Hoover, particularly if one accuses the director of the FBI of not engaging in activities which the law does not make his realm. John Crosby, a writer for the New York Herald Tribune, does precisely that in an article entitled, "The FBI's Commercial."

Crosby takes offense at Hoover's statement that "the onslaught of crime is today at an all-time high." This is part of a paragraph by the FBI chief over the radio. The FBI is charged by law with the compilation of crime statistics but neither the FBI nor the federal government is permitted to engage in all forms of crime suppression, cur not being a national but a federal government, controlled by Constitutional limitations, acts of Congress and decisions of the Courts.

For instance, John Crosby says: "Gambling, narcotics and industrial rackets are now among the biggest businesses in this country, and hoodlum money is now infiltrating all sorts of respectable businesses."

By what law is the FBI charged with police supervision of gambling, narcotics and industrial rackets? Gambling is, by law, none of the FBI's business except as a statistical item in uniform crime reporting. Gambling may or may not be an offense, depending upon local law. For instance, in New York State, roulette is forbidden but in Nevada it is permitted. The government of the United States collects an excise on gambling but does not permit gambling on army posts.

Narcotics are under the jurisdiction of the Bureau of Narcotics, a small agency of the federal government which performs miracles on a small appropriation. The FBI is not charged with the suppression of either the importation, sale or consumption of narcotics. The importation is watched by the Bureau of Narcotics and the Customs; the sale and consumption are matters handled by local police forces.

Crosby knows this, for he says: "Ours is the only country in the world with organized crime on such a huge scale, and we are one of the few countries without a national police force."

True, J. Edgar Hoover is opposed to a national police force which easily becomes a militia. Should Congress pass an act organizing such a force, the Supreme Court would, beyond doubt, reject it as an invasion of the authority of the states.

Originally, the FBI was not designed for police enforcement at all; its very title explains that—Federal Bureau of Investigation. Over the years, Congress has assigned to this agency specific police activities, but Congress has also assigned police activities to other agencies, for instance, the work of the Secret Service which is in the Treasury.

Crosby asks: "How many big shots of organized crime has the FBI arrested in the last five or ten years? Are they looking for any? Has the FBI any program for trapping any of those well-organized and enormously rich racketeers Mr. Kennedy talks about?"

Under what laws does Crosby expect the FBI to make these arrests? For instance, it is no crime to be a "rich racketeer," unless one specifically defines what is meant by racketeer. If a man commits a felony under state law, he may, if convicted, be called a racketeer which is a general term for certain types of criminals. The FBI is an agency of no state and may not enforce state laws, although it is permitted to assist state and municipal police agencies to enforce the law by providing fingerprint and other identification information. In fact, often when the FBI has investigated a felony, it turns the data over to local police for processing and arrest.

I do not know what John Crosby knows about what he calls the crime syndicate. Actually, most gangs of criminals engage in felonies and misdemeanors which are not covered by federal law at all. For instance, prostitution is a local offense, but the transportation of a female for immoral purposes across state lines is a federal offense under the Mann Act. The FBI may not go into a city and close houses of prostitution. That is the function of local police. It may, however, step into a situation involving kidnapping under the Lindbergh Act.

★ The Well Child ★  
Sick or Shamming, Ailing  
School Child Is Problem

By HAROLD T. HYMAN, M.D.

Written for  
Newspaper Enterprise Assn.

"To go to school or stay home from school?" That's the question that puzzles the conscientious parent almost as much as "To be or not to be..." puzzled Hamlet.

At one end of the spectrum is the suspected "goldbricker" who puts on an act on Monday morning or on the day of an exam for which he or she is inadequately prepared.

At the other end is the over-conscientious youngster who is fearful of making any complaint lest he or she sacrifice a perfect record of attendance or miss a class with a revered and respected teacher or lecturer.

Dangers lurk in each of these extreme attitudes. And in many intermediate situations. To let the goldbricker get away with his or her act is to establish a precedent that may lead to later and greater exploitations of the "strength of weakness."

To permit the hyperconscientious child to hide or deny distress may result in deterioration of an infected appendix that might have been easily and rapidly removed; if the complaint of belly-ache had been reported when first noted.

On a broader scale, a school epidemic of an infectious disease might have been averted if a sore throat was called to the parent's attention before the youngster got on the bus or mingled with classmates.

The difficulties of making the on-the-spot decision are by no means lessened by the usual commotion that's prevalent in most households between waking-up time and the mad dash to get to work, school or the office.

School buses, car pools, and trains can't be held up while mom and pop go into conference.

Here are a few suggestions that may prove helpful: After the goldbricker has gotten away with his or her act the first time, waken him or her a few minutes before the usual time each morning thereafter; inquire into existing complaints and while there's still time look for obvious signs of disease.

That is to say, a rash, especially behind ears (measles); nasal discharge, reddened eyes or throat; elevation of rectal temperature; or a swelling or glandular enlargement, at or near the site of complaint.

Finding nothing, send the youngster off with instructions to report to the school nurse or doctor, on arrival. And phone the school to alert some official to see that the youngster reports before mingling with classmates.

In the case of the hyper-conscientious student who won't complain and who refuses to permit examination or temperature recording despite an appearance of illness, phone the school nurse or doctor of your suspicions.

And request that your youngster be looked over before entering class.

I won't guarantee that school officials will cast their ballots for you as "Parent-of-the-Year." But you may perform a valuable health service to your own child and to his or her classmates.

"Hope the Water Holds Out"

Washington News

By WASHINGTON STAFF  
Newspaper Enterprise Assn.

WASHINGTON — (NEA) —

Club membership is playing a more important part in the New Frontier than in any past administration. President Kennedy, listed as an honorary member of the Metropolitan Club, has not yet decided whether to accept or reject the membership.

His brother, Attorney General Robert Kennedy resigned from the club last month in protest over its ban of Negro members and guests.

But McGeorge Bundy, special assistant to the President for national security affairs, was admitted to the club about the same time the attorney general quit.

In the meantime, the President stood by while cronies Walter Heller, chairman of President's council of economic advisers, and George Larrick, commissioner of Food and Drug Administration, were admitted to the Cosmos Club.

The President's application for admission to the Cosmos Club—which reads, "John F. Kennedy: Writer; Public Official; President of the United States"—comes before the admissions committee in about three months from now.

POSTMASTER GENERAL J. Edward Day tells the story of the English sailor who threw the staid Royal Medical Society into a tizzy of excitement when, in a letter, he recounted his miraculous cure of a broken leg. His story was that, having fractured the limb by falling from the top of a mast, he had dressed it with nothing but tar and oakum. Three days later, he was able to walk as well as he could before the accident.

The Royal Society made quite

a to-do over the cure until one enterprising doctor decided to investigate. Turns out the sailor had a wooden leg.

GEN. P. D. ADAMS, head of the new joint Army-Air Force limited war command, loves the Army with a consuming passion. He finds it difficult to understand how any of his officers could have interests beside the Army.

On one occasion, he ordered that all officers appear in whites for the visit of a Southeast Asia bigwig. Since whites are not normally required for most U. S. home bases, some officers grumbled about the added expense.

Adams countered that he expected all officers to have not only whites, but every uniform in the book, including full dress. One officer protested that in that case, he wouldn't be able to afford civilian clothes.

"Why do you want civilian clothes?" Adams asked in stunned disbelief. "You can go anywhere in Army clothes and be properly dressed."

Another officer who worked for Adams for some time said he was always completely informed on what the general thought about any subject even before seeing him. His office was well down the hall from Adams's, but he could hear the general yell.

BARTENDERS ARE a sober lot, but in Washington, where per capita consumption of alcoholic beverages is almost the highest in the nation, the mixers and shakers are notoriously dry. "Don't you ever take a drink?" one of the oldest bartenders was asked by one of his oldest customers.

The bartender shook his head and then gave the tee-totaler an argument they should be able to use for years: "Whisky wasn't made to be

drunk," he said. "Whisky was made to be sold."

GEN. LYMAN LEMNITZER, head of the Joint Chiefs of Staff, is amused about the moves and shufflings that always seem to be going on in the Pentagon.

Whole offices and divisions have been shifted in the past—each move complete with walls being torn out, closets demolished and doors added.

Hearing of yet another shuffle, Lemnitzer joked: "What we ought to do is fix things so we could turn the whole Pentagon one degree to the right."

THOMAS ADAMS, great-great-grandson of President John Adams and current president of the Massachusetts Historical Society, favors an "open door" policy for its membership.

Speaking at a luncheon marking publication of the first volumes of the Adams family's papers, he said the society did not limit itself to the pillars of the scholarly world, nor bar cranks and eccentrics.

"Pillars sometimes crumble," he added, "and cranks may turn out to be geniuses."

CIVIL DEFENSE men at the Pentagon are sick of hearing the stories about people stocking guns to keep others out of their bomb shelters. They are proudly showing this letter, which they received from an ordinary citizen:

Gentlemen: Please send me whatever printed instructions you have available regarding the building and equipping of a fallout shelter.

Perhaps you may have a general ground floor plan. Our family consists of seven persons, but naturally we may want to include some friends who may not have any protective facilities, so perhaps we had best figure on a dozen people.

Thank you.

AS PEGLER SEES IT

By WESTBROOK PEGLER

This is the wildest darn kid you ever met. Work is his deal. He likes to work and to get work done. He likes to look back over his trail and see what he has accomplished. He had a job with a rich woman who lives alone and likes to have people in for rather stately, talky dinners and she tried to teach him to serve meals. He was willing to make her bed and even hang up her nightgowns and stuff and he didn't mind serving the meals. But when she told him that instead of calling him Mike, which is his name, she would call him Michael he said, "The hell you will," and checked out.

He lives in the foreman's house on a place that used to be a ranch. It had been empty for quite a while and empty houses develop a smell and must. He killed a white scorpion under his bed and a big rattler outside the kitchen. He scrubbed down the walls and swabbed the concrete floor and then borrowed a waxer and waxed it. He turned up with odds and ends of small stuff in the way of furniture and some pots of flowers he had started. He can make cornmeal muffins and sourdough biscuits and coffee and fry things. His sink and pantry are as neat as the galley of a man of war.

"That little guy, Mac, the builder, is a wonder," Mike said after a few days. "He can do any dam thing that has to be done with tools. I am going to learn a lot from being around him. One of these days I aim to get me an acre somewhere with water tied in and build me a house. I could make my own 'dobs or build bound forms and pour the 'dobe mud in and let 'er set like concrete. But those 'dobe bricks are pretty cheap and I might use them instead."

## When to Open on Fourth Hand

BY OSWALD JACOBY

In response to numerous requests to discuss the bidding problems involved in opening in third and fourth seat and about responding after you have passed originally, I will devote several weeks' articles to the subject.

In the early days of contract, the fourth hand opening was always a big hand. The theory was that you could pass and get a new deal, so why take a chance? Today, a good player will open in fourth seat any time he thinks that the odds favor his side making a profit. He won't always be right, but he will win more than he will lose if he will simply follow these rules:

1. Open any time with a proper first hand opening bid.

2. Shade a bid a trifle or maybe even more, when there is a good spade holding.

North's fourth hand spade bid follows rule two. He has 11 high card points and a hand that would not quite be worth a first or second seat bid. South makes his normal response of two hearts and North passes. When

you open in third or fourth seat you reserve the right to pass your partner's new suit response. Playing at two hearts South makes three odd. ## Reports Defense Contracts Triple In Empire State

SCHENECTADY, N.Y. (AP) — The value of defense contracts awarded in New York State's 18 labor-surplus areas nearly tripled in the second quarter of the year, a Democratic congressman says.

Rep. Samuel S. Stratton of Schenectady said the increase "clearly demonstrates the remarkable

job the Kennedy administration has done...in making maximum use of the defense effort to stimulate jobs in unemployment areas."

During the April-June period, Stratton said in a statement Saturday, the value of contracts to plants in the areas of heavy unemployment totaled \$151,306,000.

During the first quarter of the year, he said, contracts totaled \$51,436,000.

He said all but three of the 18 areas received substantially more prime military contracts than during the first quarter.

## Canadians After Toll Situation On Welland Canal

TORONTO (AP) — The Great Lakes Waterways Development Association sees the elimination of tolls on the Welland Canal as a first-step toward toll-free Canadian waterways.

The association maintains that tolls on the Welland and the St. Lawrence Seaway would be increased in 1961, when the entire tolls structure will be reviewed, "unless public opinion is mobilized against this dangerous possibility."

An increase would threaten exports from Western Canada to Eastern ports and overseas markets, the group said. "Transportation costs are a contributing factor in pricing Canadian-made products out of foreign markets," it declared.

The association, formed in 1959 to promote low-cost transportation on Canada's inland waterways, made the protest in a booklet. The group has opposed tolls since its inception.

## Commissioner Dies

AMSTERDAM, N.Y. (AP) — Roland Hoffman, of Fort Plain, welfare Commissioner of Montgomery County from 1934 to 1956, died Saturday in a hospital in this Mohawk Valley community. He was 68.

Hoffman also had served as a village trustee in Fort Plain and as a member of the county board of supervisors.

## Scout Rocket Due For Firing Soon

WASHINGTON (AP)—A Scout rocket designed to climb 4,500 miles in one hour will be fired this week. Its aim: to explore the ionosphere and send back important data for radio communications and for the tracking and guidance of space craft.

The solid fuel Scout, a four-stage rocket 72 feet high and weighing more than 18 tons, will be launched from Wallops Island, Va. It will carry aloft a 94-pound package of instruments.

The rocket's final stage will remain attached to the eight-sided scientific package. They are expected to fall into the South Atlantic, 5,500 miles from the launch site. No recovery attempt will be made.

## Language Booklet Is Now Available

ALBANY—Dr. James E. Allen Jr., commissioner of Education, today announced publication of a 24-page brightly illustrated booklet on the importance of learning modern foreign languages titled "Let's Learn Languages."

This new publication of the State Education Department calls for Americans to learn to speak, read, and write "the other fellow's language" so that "we can talk about problems person-to-person" and "build a mutual understanding of the problems we know can result in war or peace, life or death—depending on how they are handled."

## Open Bids on Paltz Work on Wednesday

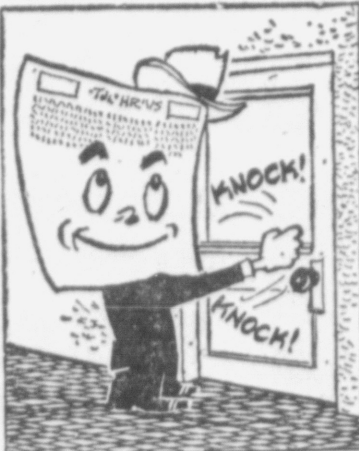

ALBANY — J. Burch McMoran, Superintendent of Public Works, announced today that bid proposals on 13 projects—one in New Paltz—for construction, repairs and alterations to various state-owned facilities will be opened at the State Office Building here at 2 p. m., Wednesday by the State Department of Public Works.

Work at New Paltz includes improvement of grounds, at Dormitory Buildings, 8, 9, and 20 at the State University College.

## Glancing Over TV Bill of Fare

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP) — Jack Benny, to echo the opinion of an admiring colleague, is without question the best comedy actor of our time. And, continuing to borrow from Steve Allen, the first reason we laugh at Jack is that we have been conditioned for over 20 years to do so.

Jack Benny returned to weekly television on CBS Sunday night to start his 11th season—or his 29th, if you count all those years on radio. And we laughed. We laughed at all the things we have learned over the years about the character Jack plays: his stinginess, his vanity, and that cocky assurance so easily punctured.

It was familiar stuff, all of it. But if it had been anything else, we would have been disappointed. He had Phil Silvers for a guest star. There also were surprise appearances by Garry Moore, Jack Paar and Alan King, none of whom spoke a single word, but got laughs anyway.

NBC's Sunday night "Show of the Week" was the "Battle of the Paper Bullets," based on an actual Nazi scheme to destroy the economies of Britain and the United States by turning out counterfeit pounds and dollars by the yard.

The idea had a fascinating potential; the play, alas, did not take advantage of it.

The United States Army — not the usual cavalry, but an armored division — arrived in the nick of time to get the author of the book and provide some sort of ending.

The way the new shows are shaping up, the two most interesting entries this season are NBC's "Dick Powell Show," a smooth, highly professional anthology series which so far has featured both good scripts and good acting, and ABC's "Premiere," on which Fred Astaire plays host and which kicked off last week with an interesting if shocking drama.

"The Joey Bishop Show," which started out with a big audience — in a magnificent spot sandwiched between "Wagon Train" and Perry Como's hour—still is a disappointment. "Hazel" and "Mrs. G. Goes to College" are perking along nicely — but due largely to the stars, Shirley Booth and Gertrude Berg, not their material.

Recommended tonight: "Thriller," NBC, 10-11 EDT. The Weird Tailor, a tinger concerned with sorcery and revival of the dead.

The ancestors of today's Britons fled to Brittany, France, from Cornwall, Ireland, and Wales during the 5th and 6th Century invasions by Angles and Saxons of Great Britain.

## Retired Colonel To Direct State Meat Inspection

ALBANY, N.Y. (AP)—A retired Army colonel will direct the state's new meat-inspection unit. Col. William E. Jennings, a veterinarian, will be paid \$9,500 annually as head of the inspection unit of the division of animal industry.

Don J. Wickham, state agriculture commissioner, appointed Jennings Sunday.

The inspections, beginning Jan. 1, will cover slaughter houses or butchers' shops that have not been subject to inspection under federal, state, county or municipal law. These shops, Wickham said, process approximately 15 million pounds of meat and meat products annually.

In another state appointment Sunday, Ward Morehouse, education director for the Asia Society of New York City, was named a full-time consultant to the education department on foreign-area studies.

Morehouse, who will take office Dec. 1, will help draft programs to prepare teachers in studies involving Russia, Asia, India, Africa and Latin America.

James E. Allen Jr., education commissioner, said Morehouse, of Croton-on-Hudson, would be paid \$14,000 a year.

## Says JFK Could Have Ruled Out Plane Contract

WASHINGTON (AP) — The Washington Post said today it had learned President Kennedy was assured by former President Dwight D. Eisenhower that the shipment of surplus Saber jet fighters to Yugoslavia was in the national interest.

"Gen. Eisenhower is said to have told President Kennedy," the Post story said, "that the planes shipped to Yugoslavia were obsolete and would never be a factor in a major war of the future."

"The decision to ship the planes to Yugoslavia was made before the change of administration last January and explained to the incoming president by the outgoing president, according to a source informed about the background of the affair."

Disclosing the transaction last week, the State Department said it was intended to help Yugoslavia stay free of Soviet domination. In connection with the sale of the 135 planes, eight Yugoslav Air Force men are being trained at Perrin Air Force Base, Tex.

The State Department said the purchase agreement was completed Jan. 15, five days before Kennedy succeeded Eisenhower. Kennedy could have canceled the contract, but decided to let it stand.

There has been criticism of the deal from some Congress members. Saturday, administration officials reported that Kennedy last month had ordered a review of U.S. aid to Yugoslavia.

## Camel Driver Is To Get Elaborate Welcome on Visit

JOHNSON CITY, Tex. (AP)—Vice President Lyndon B. Johnson plans today to give a Pakistan camel driver the same gilt-edged treatment that has charmed heads of nations.

Bashir Ahmad, 44, who sports a flowing black mustache, and Johnson arrived at the latter's central Texas ranch Sunday night.

The camel driver then was whisked to the ranch house in a jeep flying the Pakistan flag.

The vice president planned to take Bashir on a tour similar to sightseeing trips given President Kennedy. German Chancellor Konrad Adenauer, Pakistan President Ayub Khan, and Mexico's President Adolfo Lopez Mateos. Bashir's trip originally was scheduled for July 4 but was delayed until after the visit of the Pakistan President.

Johnson—to whom Bashir refers as "the deputy king"—first met the camel driver while the vice president was touring Pakistan last spring. As he shook hands with Bashir, Johnson said, "Come over and see me." and Bashir accepted. American business men made the trip possible under the People-to-People program.

## Cuban Refugee

vessel which appeared to be a refugee boat picked up other refugees from a leaking boat and went into an inlet. The refugees went ashore.

"At 3 p.m. the boat that appeared to have been fishing pulled up anchor and advised Sear that it was returning to Cuba," Moody related. "But instead it went into the inlet and opened fire with rifles on the refugee boat. The crew returned the fire with a couple of rifles and then jumped overboard and waded and swam to shore. The Cuban boat turned its fire on the refugees waiting on the beach and kept it up for 10 or 15 minutes. Finally it left."

No one was injured. The group comprised 21 men, 6 women and 18 children.

## Teachers Urge

take over, at a cost of \$6 million to \$7 million, the full cost of retirement benefits for state employees.

Eliot Birnbaum of Syracuse was re-elected president of the group. Others elected Saturday were Roy Mort of Niagara Falls, first vice president; Steve Seleck of New Rochelle, third vice president, and Dorothy Gustafson of Schenectady, legislative representative. Re-elected were Sol Joffe, second vice president; Ann Brown of Rochester, treasurer, and Jean Gordon of Schenectady, secretary.

## Financial and Commercial

NEW YORK (AP) —The stock market headed irregularly lower early this afternoon. Trading was moderate.

The Associated Press average of 60 stocks at noon was off .40 at 256.90 with industrials off .40, rails unchanged and utilities off .40.

Losses of fractions to a point or so outnumbered gainers among pivotal issues.

As Chrysler faces what promised to be tough negotiations with the United Auto Workers, the stock fell about 2 points, dampening other Big Three motors.

Steels backed away unevenly as prospects for a lag in steel output continued, in view of the auto work stoppages. Airlines took a string of losses. The edge was to the downside among tobacco and retail. Aircrafts were steady to a bit higher.

Wall Street had its fingers crossed as to what new development would come out of the Communist party congress which starts in Moscow Tuesday.

The Dow Jones industrial average at noon was up .33 at 703.64. Prices on the American Stock Exchange moved generally higher in moderate trading.

Corporate and U.S. government bonds were steady in light dealings.

Quotations by Wood, Walker & Company, members of the New York Stock Exchange, 62 Wall Street, New York City, branch office, 52 Main Street, Matthew F. Hasbrouck, Jr., manager.

**MISHAP ON THRUWAY**—Fatum Ambulance drivers prepare to lift James McGeon, 50, of Woodside, L. I., on the stretcher Saturday morning following a mishap at Milepost 82 on the Thruway, nine miles south of Kingston. Drivers are Gilbert Gray (left) and Richard Mertine. McGeon is reported in fairly good condition today at Kingston Hospital. Thruway troopers said McGeon and his wife were proceeding north when they were apparently cut off by a passing car. Their vehicle overturned two or three times and landed upside down on the center mall. McGeon's wife apparently suffered minor injuries but was not admitted to the hospital, troopers said.

## U. S. Gets Ready To Launch First New Superrocket

CAPE CANAVERAL, Fla. (AP) — Scientists plan to launch this week the first Saturn superrocket on an eight-minute flight which will start the United States on the long road to manned landings on the moon.

The National Aeronautics and Space Administration reports the firing will take place within a few days if no problems arise. With 1.3 million pounds of thrust—about 30 million horsepower—the first Saturn is three times more powerful than any previous U.S. rocket.

The maiden flight will test the first stage only. Two upper stages will be filled with 23,000 gallons of water to simulate weight of the operational rocket.

The flight plan calls for the 162-foot, 462-ton Saturn to accelerate to a speed of 3,700 miles an hour during the 1 minute 57 seconds burning time of its eight big engines. In that time it will consume 300 tons of fuel.

When the engines cut off, the vehicle will coast upward on a ballistic trajectory to an altitude of 95 miles before plunging back into the Atlantic Ocean 235 miles to the southeast. No recovery attempt will be made.

Saturn is the United States' first entry in the heavy booster field. The Soviet Union has been using for some time an operational space rocket with estimated thrust of one million pounds.

## Ford Is Aiming To Have Workers Back Wednesday

DETROIT (AP)—The Ford Motor Co. aimed today at having its 120,000 production workers back at their jobs by Wednesday, the United Auto Workers Sunday have ordered local unions to call off strikes at all but two of Ford's 85 plants.

There was doubt, however, just how far Ford could go without settlement at one of the two plants still struck — the Walton Hills stamping plant outside Cleveland, Ohio, which employs 3,300 and makes pressed metal parts for all of Ford's car divisions.

A strike at Walton Hills a year ago began to take Ford assembly lines down in six days, and a union spokesman predicted today that if this plant were not back working in nine days, all Ford assembly lines would be affected.

Beside authorizing workers at Walton Hills to continue their strike in support of local-level demands, the UAW's international executive board told the 1,700 employees Sunday it represents in an engine factory at Wayne, Mich., they could continue their walkout for an at-the-plant settlement to supplement the national contract.

Ford and the UAW reached agreement last Thursday on a new three-year national contract that carried wage and fringe improvements which the union estimated worth more than 12 cents hourly in take-home pay. Similar benefits had been won earlier at American Motors Corp. and General Motors Corp.

Chrysler Corp. is the next target for UAW bargainers. Chrysler negotiations, as had Ford's, have been allowed to slide while the union hammered away elsewhere.

On the strength of its national contract and a series of local settlements Ford summoned about a third of its 120,000 production workers back today. It said maintenance workers would be back on the job Tuesday and all by Wednesday, it hoped.

## Hurley Democrats Plan Annual Dinner

The Hurley Democratic committee has completed plans for its annual dinner, scheduled Saturday, Oct. 21 at Rolling Acres on Ohayo Mountain Road in Glenside. Dinner chairman John Dugan said the dinner will be an informal affair with county and town candidates present but no speeches. He is being assisted in arrangements by John Flanagan, Harold Kearney, Joseph A. Vidal, William Cannon, Ambrose Maxon, Mortimer McMahon, James Hogan, Al Nussbaum, Daniel Fochi and Andrew Kispert.

## Vois Meet Tuesday

The Ulster County Volunteer Firemen's Association will meet Tuesday night at Highland where they will be guests of Highland Hose Company 1. All fire chiefs are expected to present at that time a full report on their company activities during Fire Prevention Week. Other important business will come before the meeting. The November meeting will be held at Saugerties.

## Two Persons Hurt

Two persons reported slight injuries after a two-car mishap at Wrentham and Savoy Streets early Sunday afternoon. Police said one car was driven by Robert D. Eastman, 49, of 116 Pearl Street, and the other by Derek James Barnes, 24, of Mill Stream Road, Woodstock. Grace Eastman, 48, of 116 Pearl Street, reported an injured left wrist and Amelia Dugan, 45, of 110 Savoy Street, a head injury.

## Six Men Injured One Is Arrested In Sunday Crash

Six persons were injured and a motorist was arrested on a charge of driving an automobile while intoxicated as the result of a two-car collision Sunday at 3:20 a. m. on Route 9W south of Marlboro.

Highland State Trooper Wallace Mahan said the cars were a 1954 vehicle operated by John Iacono, 25, of 697 Main Street, Poughkeepsie, and a car driven by Duke Childress, 20, of 120 North Pierce Avenue, Wheaton, Ill.

### Driver Is Accused

Mahan charged Childress with drunken driving. The case will be heard before Justice of the Peace Curtis W. Northrip, Town of Marlboro.

According to troopers, Childress was driving on Route 9W when his car skidded, spun clockwise and crashed into the north-bound car driven by Iacono.

Injured and taken to St. Luke's Hospital, Newburgh, were Iacono, who suffered a fracture of the left leg and facial lacerations; Childress, who received a possible fracture of the left leg and lacerations of the face.

### Taken to Hospital

Others injured were Robert Perrego, 19, of 34 Lutheran Street, Newburgh, who received a possible fracture of the left jaw and injuries to the shoulders and face; Robert Babcock Jr., 19, of 108 Berkard Avenue, Newburgh, who suffered a fracture of the skull; Frank Rahn, 17, of 91 Broadway, Newburgh, who received a fracture of the skull, and William Dobbs, 18, of New Windsor, who was treated for lacerations of the right leg and abrasions of the forehead.

Perrego, Babcock, Rahn and Dobbs were passengers in the 1956 car driven by Childress, troopers said.

## Rayburn Remains Seriously Ill

DALLAS, Tex. (AP) — House Speaker Sam Rayburn 79, remained seriously ill with incurable cancer today after a week-end during which he weakened and then rallied.

The Texas Democrat has been at Baylor Hospital since Oct. 2. In its morning bulletin Sunday the hospital said Rayburn's condition was "only fair," that he seemed weaker and had "periods of confusion."

A bulletin Sunday night described Rayburn as seeming more alert but said that there had been no basic change in his condition, which was termed serious.

The bulletin also said the initial course of treatment with 5-fluorouracil and FUDR has been completed.

"After a period of observation if his condition permits, treatment will be resumed with FUDR or irradiation therapy or both," the report said.

### Firehouse Has

SELKIRK, N.Y. (AP)—The remodeled firehouse in this community near Albany includes a fallout shelter.

Lt. Gen. F. W. Farrell, state civil defense director, said at a dedication ceremony Sunday that he believed shelter was the first in the state in a firehouse.

The shelter cost \$10,000 of the total \$50,000 cost of remodeling the Selkirk Fire Co. No. 1 firehouse. The firemen estimate the shelter would hold 200 to 300 persons.

"Right now we're broke and haven't any definite plans to equip it," said Fire Chief John Wiley.

Divides \$100,000 Into Stocks for Retirement

ROGER E. SPEAR

Q "My wife and I are both 52 years old, and I plan to work for another eight years. We recently sold a piece of real estate for \$100,000 but don't care to reinvest in more property. Would you kindly recommend some common stocks which pay a medium-sized current return and have good growth possibilities?"—D. W.

A You are in an enviable position. If sensibly invested, your capital could grow to an even more impressive sum by the time you retire.

In choosing specific stocks, I recommend that you consider only those issues which have shown steady earnings gains year after year. In your position, I would confine my selections mainly to stocks representing the various consumer industries, such as foods, finance, drugs, cosmetics, retailing, tobacco and utilities. These particular groups have strong growth potentials and are not subject to the ups and downs of the economy as are, for example, the coppers, chemicals or machinery makers.

Assuming that you have a sufficient backlog of savings, my suggestion is that you divide the \$100,000 into eight equal parts,

putting each portion into stocks like American Home Products, Avon Products, Gillette, Fairmont Foods, CIT Financial, Virginia Electric & Power, American Tobacco, and Sears, Roebuck.

This list will give you plenty of diversification as well as a 2.2 per cent current return. And eight years from now I think you will have built up some excellent capital gains.

Q "Would you please explain the term 'holding company' to me?"—E. H.

A I'd be glad to. A holding company is a firm which owns stocks of other companies in order to control them. A notable example is American Telephone, which is both an operating company and a holding company. The parent company itself operates such services as the long distance lines, and—through stock ownership—controls the vast Bell Telephone System, which includes such representative companies as New England Telephone & Telegraph and Pacific Telephone & Telegraph.

Mr. Spear cannot answer all mail personally but will answer all questions possible in his column.

### Fire Claims Lives

A two-car collision in the Rochester suburb of Greece Saturday claimed the lives of Elmore H. Peters Jr., 32, of Rochester, and John Roman, of Niagara Falls.

The sisters, Cindy Hubbell, 12, and Jodi, 5, perished in a fire Sunday at their home at North Bay, Oneida County. They were the daughters of Mr. and Mrs. James A. Hubbell.

Other fatal accidents, by community during the period:

New York—Edward Haas, 69, of Queens, struck by a car Friday.

Poughkeepsie — Raymond R. Lane, 26, of Staatsburg, auto struck a tree Saturday.

Buffalo—Miss Noreen P. Shriber, 40, of Buffalo, struck by a car Saturday.

Lewiston—David J. McMullen, 22, of Buffalo, auto hit a tree Saturday.

Killed by Loader

Evans Mills—George J. Young, 11, caught in an ensilage loader Saturday on a farm 3 1/2 miles south of Evans Mills, Jefferson County.

Albany—Otto Galusha, 42, of suburban Colonie, died Saturday of injuries suffered earlier in the day in an auto-truck collision west of Albany.

Putnam Valley—Peter Kilcomons, 63, of West Hempstead, car hit a boulder on the Taconic State Parkway Saturday and burst into flames.

Boonville—Carolyn Kraeger, 18, of Constableville, auto hit guard rails Saturday.

Voorheesville — Raymond V. burgh, 13, accidentally hanged while playing Saturday in a barn at the rear of his home in this community near Albany.

Centereach—Harold McCall, 23, of Centereach, auto struck a tree Saturday.

Huntington Station — Kenneth Watts, 56, of Huntington Station, car struck a tree Saturday.

Clyde—Samuel Barber, 50, of Clyde, fire leveled his home Sunday.

Fayette — Gale Stengle, 14, of MacDougall, a automobile overturned in a ditch near the Seneca County community of Fayette Sunday.

Millbrook—Peter Bradley Clark, 22, of Southampton, auto hit a tree Sunday.

NEW YORK (AP)—The Kennedy administration and business are getting closer together today on at least one disputed issue: Tax allowances for the wear and tear on machines and plants.

The President has been urging speedier modernization of industry to promote economic growth. Industry has been charging it is held back by obsolete tax rules.

**Liberal Writeoffs Due**  
The Treasury now indicates it will be more liberal—as many businessmen have been asking—in allowing quicker depreciation writeoffs for tax purposes.

It has taken the first step by cutting the writeoff time for many kinds of textile machinery to as low as 15 years from the previous 25 years. It is studying other industries burdened with plants and machinery made obsolete in re-

cent years by the big speedup in technology.

In return for this promised shortening of depreciation time schedules where found justified, business leaders indicate they'll look with more favor on a Kennedy administration pet scheme: A tax allowance as a reward for the purchase of new equipment.

**January Action Seen**

At first the President proposed a sliding scale giving the biggest tax allowance to firms making unusually heavy investments. This was changed by the House Ways & Means Committee to a flat reduction of 8 per cent of the equipment cost. The modified bill, which Treasury officials indicate the administration will accept, is docketed for first order of committee business in the new session in January.

But businessmen aren't primarily interested in this untried device. What they have sought is an updating of the depreciation rules,

last revised in 1942. Today they are cheered by the concession to the textile industry and the assurance of Henry F. Fowler, undersecretary of the Treasury, that other industries are being studied.

**How It Works**

This is how the shorter depreciation time works: If a company must write off a million-dollar equipment purchase over 25 years, it can take a depreciation allowance for tax purposes of \$40,000 a year. But if it can write off the cost in 15 years, it can deduct about \$67,000 a year.

With the corporate income tax rate at 52 per cent, this difference of \$27,000 means that the company has about \$13,500 more cash available each year.

The U.S. Treasury would get less taxes during the faster write-off period. But business spokesmen argue that shorter or longer schedules work out in the long run to the same total payments, assuming the machinery is in use

throughout the allowed depreciation period.

Businessmen also contend that today machinery becomes obsolete much faster than in calmer eras when the tax rules were made. A number of industries have told Congress they are stuck with obsolete machinery valued for tax purposes at the original price but which can't be replaced at even twice that cost.

Steel made a point of this in its dispute with President Kennedy over prices, saying earnings must rise to pay for costlier plants. Railroads bemoan the lack of tax aids in replacing their obsolete equipment.

Other U.S. industrialists note that most other nations permit faster writeoffs and that many grant other tax incentives in the year of a new purchase. American companies complain that their old plants can't compete with the modern ones recently built in western Europe and Japan.

**THERE ARE SMILES . . .**—With a broad smile that indicates he knows where game abounds, hunter Mukopai prepares to go hunting in the forests of the Altai Mountains in Sinkiang, China. His foxy companion appears to be in equally good spirits.

## Missing Jet With 8 Men Mars Air Defense Test

WASHINGTON (AP)—The disappearance of a bomber carrying eight men has marred an otherwise highly successful major test of North American air defenses.

The B52G jet was one of more than 2,250 U.S., Canadian and British planes that participated Saturday in the 12-hour mock aerial war, Sky Shield II. The North American Air Defense Command said: "The exercise was 99.9 per cent effective, and the results were as good as we could possibly expect."

The eight-jet bomber, attached to Seymour Johnson Air Force Base at Goldsboro, N.C., was believed to have run out of fuel. Air and surface craft swept a wide area in the Atlantic in search of the plane after it was reported missing early Sunday.

After the defense test ended at

midnight Saturday, commercial air travel resumed across the continent. Except for mercy flights and a few other essential ones, no civilian planes were allowed to cross the skies during the mock war.

The exercise began with a simulated mass missile attack. Then more than 200 U.S. Strategic Air Command and British Royal Air Force bombers playing the role of "enemy" planes bored in for a follow-up assault. American and Canadian jets roared aloft in more than 6,000 sorties to head them off.

At the end of the test, an official at the air command headquarters at Colorado Springs, Colo., said, "The warning systems worked like a charm."

The surfaces of planes flying at twice the speed of sound will heat to 300 degrees Fahrenheit even in the fairly thin atmosphere at 30,000 feet.

#### Spring Lake Auxiliary

The October meeting of the Ladies Auxiliary of the Spring Lake Fire Department was held at the firehouse on Thursday, Oct. 12.

The Auxiliary was host to the firemen of the district so that the two organizations might plan the joint projects they will work on in the coming year. The annual cake sale will be held this year at the firehouse on November 7 during voting hours. There will also be coffee and assorted baked goods available all day long for the convenience of the voters. Mrs. Ray Davis will head this committee and will be in touch with all members of the Auxiliary in the coming week.

During the meeting, refreshments were served by Mrs. E. Schussler assisted by Mrs. Alsdorf, Mrs. Seidel and Mrs. Eell. Mrs. Christopher and Mrs. Hulsair were welcomed as new members.

The next meeting will be held on November 9 at 8:15 p. m.

### DO YOU TAKE VITAMINS AND STILL FEEL TIRED?

If you take vitamins, get enough rest, yet still feel tired — you may need more than ordinary vitamins to restore your normal strength and energy. Your worn-out feeling may be due to iron-poor, tired blood. Vitamins alone can't build up iron-poor blood. But GERITOL can! Because GERITOL contains 7 important vitamins and, in addition, supplies the therapeutic amount of iron needed to build iron-rich red blood. Just 2 GERITOL tablets, or 2 tablespoons of GERITOL liquid, contain twice the iron in a pound of calves' liver! It is this rich source of iron, combined with high-potency vitamins, including essential B vitamins in 3 to 5 times the minimum daily requirements, that make GERITOL such an effective strength-building tonic. In only one day, GERITOL-iron is working in your bloodstream, carrying strength and energy to every part of your body!

#### PROVED BY MEDICAL TESTS!

Patients diagnosed with iron-deficiency anemia frequently were pale, nervous, irritable and easily tired. After patients took GERITOL daily, doctors reported definite clinical improvement — further confirmed by laboratory tests. Remember, ordinary maintenance vitamins can't do it! But the high-potency combination of vitamins plus iron in GERITOL can help you regain your strength and energy.

So when you feel tired, check with your doctor and if this is your problem, take fast-acting GERITOL every day. You must feel a noticeable difference in the first seven days... or your money back from the maker.

### Congregation of Hurley Reformed Church Gives Party for Rev. and Mrs. Schadeewald

The people of the Hurley Reformed Church, family and friends of the Rev. and Mrs. Harold F. Schadeewald held a surprise party for the pastor and his wife in honor of their 25th wedding anniversary. The gathering was held in the Education Building of the church on Saturday, Oct. 14 at 8 p. m. Approximately 150 were present, including the families and also friends from churches formerly served by the pastor. Mr. Schadeewald has been pastor of the Hurley Reformed Church for the past three years.

The church hall was decorated with a silver motif.

The committee had arranged for a reproduction of the original wedding ceremony which had taken place at the Suydam Street Reformed Church of New Brunswick, N. J. The Rev. Harold Schadeewald and Elsie C. Wolf were married there on October 17, 1936 by the pastor, the Rev. Theodore Brinckerhoff. The latter was also present at the celebration on Saturday night.

Ernest Myer, principal of the Hurley School, presented the Schadeewalds with a silver treasure chest filled with silver dollars, a gift from the congregation and friends in the community. Mrs. Schadeewald later opened many gifts that were displayed on the gift table.

Before coming to Hurley Mr. Schadeewald was pastor of the Kerhonkson Reformed Church where he was ordained on June 5, 1936. He also served in Pine Bush, N. Y., Bayonne, N. J., and Fair Lawn, N. J. He attended Rutgers University, received his Bachelor of Arts Degree from Bloomfield College and was graduated from New Brunswick Theological Seminary in New Jersey with a degree of Bachelor of Divinity.

The pastor and Mrs. Schadeewald have three children: Garry and Nancy are students at Hope College, Holland, Mich. and Judy is a seventh grade student at Myron J. Michael Junior High School.

At the conclusion of the ceremonies a collation was served at the buffet table.

### KHS Announces Names of Students Honored For Excellence on Scholarship Testing

Thirteen seniors at Kingston High School have been honored for their high performance on the National Scholarship Qualifying Test given last spring. Each student who is endorsed by his school receives a formal Letter of Commendation signed by his principal and the president of the National Merit Scholarship Corporation.

M. Clifford Miller, the school's principal, has announced that the commended students are: Roy T. Bream of 9 Esopus Avenue; Michael C. Drummond, 23 Furnace Street; Gail L. Elias, Box 568, Kingston; John M. Falvey of 110 Fair Street; Stephen W. Forster, R. D.; Bruce J. Levine, 19 West Chestnut Street; Susan E. Schwarz, Stone Ridge; Frederick E. Snyder of 67 Maiden Lane; Judith E. Terpening of 610 Delaware Avenue; Alan J. Theiss, Tillson; Katherine J. Van Allen, R. D. 5, Box 63; Patricia A. Woelke, Stoll Court; and Lawrence J. Zacher, Rifton.

John M. Stainaker, president of the National Merit Scholarship Corporation, stated:

"In recognition of their excellent performance on the National Merit Scholarship Qualifying Test, nearly 25,000 students throughout the United States are being awarded Letters of Commendation. 'While these bright youngsters did not reach the status of semifinalists in the 1961-62 Merit Program, they are capable that we wish to single them out for special attention. The semifinalists and commended students together constitute less than 2 percent of all high school seniors, and this certainly signifies noteworthy achievement.'"

The National Merit Scholarship Corporation gives recognition to two groups of students who achieve high scores on the NMSQT. The semifinalist group is composed of the highest-scoring students in each state and in U. S. territories. Some 10,000 semifinalists will take a second examination in December to establish further their eligibility to receive Merit Scholarships.

"The Letters of Commendation provide tangible recognition of the commended students' high ability," Mr. Stainaker continued. "It is our earnest hope that the recipients will continue their education and thus benefit not only themselves but also the nation."

"The Merit Program has several objectives. One is the selection of Merit Scholars. However, we also strive to foster the pursuit of excellence among all students whose high performance indicates great promise. We urge the students honored today to make every effort to attend college, and to develop to the fullest their promise of achievement."

To increase their opportunities to obtain financial assistance if they need it, the Merit Corporation sends the names, home addresses, and test scores of all commended students to the two colleges they indicated as their preferred choices at the time they took the qualifying test.

The commended students were among the high school juniors in more than 15,000 schools who took the NMSQT last March. The test is a three-hour examination that covers five separate areas of educational development. It was the first step in the seventh annual Merit Program.

This year's program will conclude about April 26, 1962, with the naming of students who will receive four-year Merit Scholarships to the colleges of their choice.

The commended students and the semifinalists who do not win Merit Scholarships are considered for certain other scholarships that are offered through the facilities of the National Merit Scholarship Corporation.

The annual Merit Scholarship competition is open to all high schools in the United States and its territories. There are 3,300 Merit Scholars currently enrolled in about 400 colleges and universities. Almost 1,200 Merit Scholars have been graduated.

Scholarship awards are made from the resources of the National Merit Scholarship Corporation and through sponsoring business corporations, foundations, associations, and individuals.

### D. Brainerd Holmes Will Head Special Washington Project

By JOY MILLER  
AP Women's Editor

MOORESTOWN, N. J. (AP)—On Oct. 27 a new family will move to Washington. There's pretty Ducky Holmes; her two daughters aged 12 and 16, her dog, Rum 8½; and her husband, D. Brainerd, who takes over a new job the first of next month.

Like any other homemaker facing a change of address Mrs. Holmes has her hands full now packing things no one can bear to part with, selling domestic impediments such as lawn mowers and restraining Rum from exuberantly knocking down prospective buyers of their seven-room ranch house.

But there are differences, because her husband isn't exactly a rising young executive opening a new office for Holmes.

D. Brainerd Holmes — whom she's called Brain since college days — will head America's man-flight space program, which includes putting a man on the moon by 1970. And the salary of \$21,000 a year is quite a cut from what he made as a top engineer with Radio Corp. of America.

"The kids are primed," Mrs. Holmes says about their economy drive. "And we're selling our boat, a 41-foot ketch we just got this spring."

"But I think I'll like Washington," she went on. "We found an eight-room house with some yard; not in Georgetown, it's too expensive."

Possibly because she doesn't look it, Mrs. Holmes readily admits to being 39. "I couldn't say anything else. People know Brian is 40 and that we were in college together."

Actually, he went to Cornell at Ithaca, N. Y., and she attended Wells, a girls school 27 miles away at Aurora.

MRS. GEORGE SCOTT ALEXANDER

(Winburn photo)

## Nancy Jane Herzog, George Scott Alexander Exchange Nuptial Vows, Fair Street Church

Miss Nancy Jane Herzog, daughter of Mr. and Mrs. Robert Hargis Herzog of 61 Lounsbury Place, this city, and Craigville, Mass., was married Saturday, Oct. 14 in the Fair Street Reformed Church to George Scott Alexander, son of Mr. and Mrs. Arthur Albert Alexander Sr. of Pelham, N. Y. The Rev. J. Dean Dykstra, minister of the First Reformed Church, Schenectady, officiated at the 8 p. m. ceremony, assisted

by the Rev. Edwin C. Coon, minister of the Fair Street Reformed Church.

A reception was given at the Governor Clinton Hotel immediately after the ceremony.

The bride, escorted by her father, wore a gown of white peau de soie fashioned with a portrait neckline, three quarter length sleeves and a chapel length bell skirt with velvet appliques bordered in pearls. The bodice of her gown was also accented with pearls. Her crown of pearls was caught with silk illusion veiling falling in fingertip length. She carried a cascade bouquet of white orchids and stephanotis.

The bride's sister, Mrs. Paul H. Jordan Jr., of Kingston, was matron of honor. The attendants were Mrs. Frank Davis of Seewickley, Pa., Mrs. Willard Robb of North Kingston, R. I., Mrs. David Bowman of Plymouth, Mich., Miss Judith Parker and Miss Penelope Rockwell of New York and Miss Julia Garrahan of Kingston. The flower girl was Susan Lebel of Mt. Marion, N. Y.

The honor attendant wore a floor length gown of turquoise satin with portrait neckline, three-quarter length sleeves, princess lines and a back extending from the back neckline and terminating in fullness at the hemline. She also wore a matching hat with short veil and carried an arm bouquet of deep pink Fuji mums. The attendants' gowns were similar to that worn by the matron of honor except in aqua. They also wore matching hats and carried arm bouquets of lighter pink Fuji mums.

The flower girl wore white embroidered organza with a turquoise and aqua sash. Her headband consisted of white stephanotis.

**MUST GREETING CARDS BE ACKNOWLEDGED?**

Q: Not long ago you wrote that it was unnecessary to acknowledge greeting cards. Against this, may I enter a protest? People who have grown lax about thanking me for my cards have been stricken from my list because I think when friends are thoughtful enough to remember birthdays, anniversaries, etc., saying thank you is the least that can be done in return.

A: It is of course always courteous and polite to acknowledge a greeting card if you want to, and have the necessary time; but most people haven't. There would be few cards exchanged if busy people felt acknowledgment were exacted. There is, in fact, very special delight in receiving a greeting card because it is the one 'gift' which requires no 'thank you.' We receive them and we send them as occasions arise and we do try to remember to thank someone we see.

### An Engaged Widow's Rings

Q: I am a widow and have just recently become engaged.

I have been wearing my first husband's wedding and engagement rings up until now. I would like to know what to do with them now that I have another engagement ring.

A: You remove your wedding ring but you may quite properly transfer your engagement ring to your right hand if your fiancé does not object to your wearing it. Or you may put both of these rings away for one of your children.

### Unable to go to Shower

Q: When invited to a shower and one is unable to go, is it necessary to send a gift anyway?

A: Since those invited to showers are usually the bride-to-be's best friends, they do, as a rule send presents even if they cannot go to the shower. If others who are

### Great Gift to Loved One: Truth About Our Feelings

Dear Mrs. Lawrence:

My husband promised our daughter a car after graduation last spring if she saved some money toward it. She did this; and then he backed down. Since I work, I gave her the extra money she needed. But my husband is so bitter about the car that he won't speak to me. My daughter has a steady job and can support the car, which she needs to go to night school. Should I make her get rid of it to keep peace?

Answer: There is, I suppose, a kind of peace to be got by submitting to another person's unreasonable. By indulging him, we avoid the unpleasantness of open conflict with him. But we do not avoid secret conflict with him. So you certainly can restore an apparent peace to your home by getting rid of your daughter's car. But it will not, I think be worth much to anyone. Your husband will have forced his will on you and his daughter to

no real advantage, as the conflict between you all will simply be waged from underground.

Truly, I shall be quite sorry for him if you indulge his unreasonable. It is not pleasant to live with two women whose resentful sense of your injustice colors everything you say or do.

So, I suggest that you tell him the truth: that you and his daughter may not be able to surrender the car without a great deal of indignation.

I am not asking you why your husband has chosen to make a promise and break it, because his reasons are his business.

I am suggesting that, when we are dealing with a person we don't understand, we have to try for as much self-understanding as we can find. If he forces an injustice on us, we have to be honest about the resentment it is going to arouse in us and not become romantic about our ability to sweetly tolerate it. We can't talk about "peace" because domination does not make us peaceful. It makes us very angry—and if we know how it affects us without feeling apologetic and scared about it, we sometimes can make the cost of his triumph clear to the person who believes that he wants triumph.

There is no greater gift we can make to another person than the truth about our feelings.

If you and your daughter can tell her father exactly how you will feel if he insists on the surrender of the car, what is done about the car will not seem nearly so important to you as it does right now.

## Two Saugerties Youths Are Hurt In Auto Mishap

Two Saugerties youths were injured at 2:50 a. m. Sunday when the 1952 car in which they were riding went out of control and crashed head-on into a tree on Route 9W south of Malden Turnpike, according to Highland State Trooper James Kaljian.

Troopers said the car was owned and driven by Jerome Thompson, 23, Box 176, Saugerties, who was traveling in a southerly direction when he apparently dozed and lost control of the vehicle.

Thompson and a passenger, John Derbyshire, 19, Box 451, Saugerties, were taken to Benedictine Hospital. Thompson suffered multiple lacerations of the legs and knees and a possible fractured jaw. Derbyshire was treated for lacerations of the face and body.

Both were admitted to the hospital for further treatment and observation, troopers said.

REDONDO BEACH, Calif. (AP)—Harold L. Dunnigan may be the first man in history to get a ticket for reckless diving.

Dunnigan, of nearby Santa Monica, took a pleasure dive Sunday in what you might call a 2-boat. It's a miniature submarine that accommodates two people.

He stayed down about 15 minutes. When he surfaced a harbor patrol boat was waiting for him. The officer aboard wrote a citation.

"Endangering surface craft by submerging and returning to the surface in the vicinity of the harbor entrance," it said.

Officer Robert E. Pierce said Dunnigan was warned on at least three previous occasions not to submerge in or at the mouth of the harbor.

## Boy Wounded by Police Says He Killed Two Former Chums

COOPERSTOWN, N. Y. (AP)—A moody, 16-year-old boy, gravely wounded by police bullets, lay in a hospital today after admitting he killed two former chums, State Police report.

The violence began between two banks on the main street of this picturesque resort community — noted as the birthplace of baseball—and ended at an Adirondack cabin on Big Moose Lake, the scene of the 1906 "American Tragedy" murder.

The only known cause of the shooting here:

"We had a fight a long time ago," Charles E. Warner gave that reason when he admitted shooting Philip Lindroth and Howard Lindstadt, both 17, Saturday night. Warner was shot by state police as he attempted to flee from his Adirondack hideout Sunday.

He had driven from Cooperstown to the lakeside cabin, about 110 miles north of Cooperstown, after the shooting. When State Police approached, he attempted to drive off in the weapon-filled car, they said.

Warner was shot in the back, leg and shoulder and the car smashed into trees. He underwent emergency surgery at St. Luke's Hospital, Utica.

"The next 24-hours will tell whether Warner lives or dies," a hospital aide said. A police guard sat at the door to Warner's room.

Warner, son of an auto salesman, was a sophomore at Cooperstown Central School. Lindstadt was a junior and Lindroth a senior.

Inseparable Once

Two of the boys had been in trouble previously.

Residents of Cooperstown said

the three had been inseparable companions until about a year ago, when Warner left the group. He was described as a loner and moody. His teachers said he was an average student.

Lindstadt, a better-than-average student, was described as outspoken and a "noodle." Lindroth, residents said, was a quiet youth and an average student.

Warner and Lindstadt lived in Bowerstown, about one mile south of Cooperstown, and Lindroth lived in Hartwick, about eight miles to the south.

**Police Version**

Police reconstructed the slayings this way:

Warner drove the family automobile down the main street and pulled into an alley between two banks — about midway between The Baseball Hall of Fame and Abner Doubleday baseball field—where Lindstadt and Lindroth were standing.

Warner fired several shots from a 12-gauge shotgun, killing Lindstadt and wounding Lindroth, who died at a hospital. Warner kept driving and evaded roadblocks.

He fled to the cabin in the Adirondacks, which is owned by an aunt.

**Refused to Stop**

As state police approached the cabin, Warner headed out a dirt road in the car. Troopers ordered him to halt, then fired several warning shots. When he failed to stop, troopers fired at the car.

Inside the wreckage, they found a pistol, two rifles, a 12-gauge shotgun, all loaded, and hundreds of rounds of ammunition.

Big Moose Lake was the scene of the murder of Grace Brown by Chester E. Gillette. Theodore Dreiser based his modern, literary classic, "An American Tragedy," on the crime.

Warner's father, Herbert Warner, told police the guns found in the automobile were missing from the family home.

Lindroth's father, Robert H. Lindroth, is a patient in the Veterans Administration Hospital in Albany.

Harry Lindstadt, father of the other victim, told a newsman:

"My boy never said anything to me about difficulties."

The elder Warner said he did not have "the slightest idea what brought this about."

"Right now I don't feel like talking about it," he told newsmen. He then lost his composure.

## 1.5 Million Plant For Dairy Items Planned in Oneida

ONEIDA, N.Y. (AP)—The Mutual Federation of Independent Cooperatives said today a \$1.5-million dairy products manufacturing plant would be built here.

The plant, the cooperative said, would "provide cooperatives with alternative outlets" and meet growing demands for milk products.

Dr. Kenneth A. Shaul, of Cobleskill, Mutual president, John Spofford of Dolgeville, a Mutual director, and Dr. Felix Ottaviano, president of Oneida Area Industries, announced the construction plans in a prepared statement.

They said Mutual Milk Sales Cooperative would gather milk for the plant, which would be built by Mutual Milk Sales Inc. Spofford said the proposed plant was capable of handling a million pounds of milk daily and could turn out 50,000 pounds of butter and more than 100,000 pounds of skim powder per day.

**Sewage Disposal Grants**

WASHINGTON (AP)—New York State has been allotted \$4,190,480 in federal funds toward financing sewage-disposal facilities.

The Public Health Service announced the allocation Saturday. The money is for the fiscal year that ends next June 30.

The communities building the projects contribute approximately \$4 to every \$1 of the federal grant.

**Release Injured**

Three Greene County youths who were injured last Thursday have been released from Albany Medical Center. All escaped serious injury when their car went off Mountain Road in Ravenna, struck a culvert and flipped over, landing upside down on a steep bank, according to Selkirk state police.

Brian Waller, driver of the car and his uncle Edward Waller, a passenger, and John Winslow of Route 23, Catskill, were taken to Albany Hospital with contusions, lacerations and abrasions. No charge was lodged against the driver.

## Newburgh Visitor Hit In Leg With Rifle Slug

A 32-year-old Newburgh woman, who troopers said was visiting friends at Willow Tree Road, Milton, when she was accidentally shot in the leg with a .22 rifle Sunday afternoon, is reported in good condition today at St. Lukes Hospital, Newburgh.

Lillie Mae Baldson, suffered a shattered femur of the left leg, according to BCI Senior Investigator Edward Shannon.

Shannon said the Newburgh woman was visiting at the home of Frances and Junius Bennett at Milton when Frances Bennett was putting the .22 semi-automatic rifle away in a closet. The rifle accidentally discharged and struck the leg of Miss Baldson as she was walking to the front door to leave, the investigator said. The mishap occurred at 2:30 p. m.

## Hearings to Open On Drug Measure

WASHINGTON (AP)—A Senate group opens hearings today on the patent provisions of a disputed drug industry bill.

Commissioner of Patents David L. Ladd and Johan Bjorksten, president of the American Institute of Chemists, were scheduled as the lead-off witnesses before the Senate antitrust and monopoly subcommittee. The hearings will continue through Wednesday.

Sen. Estes Kefauver, D-Tenn., subcommittee chairman and author of the bill, has described the patent provisions as its most controversial part.

Among other things, they would require compulsory licensing of patents on prescription drugs after three years.

## Saturday Catch 6th for Capsules

HONOLULU (AP)—An elite group of airmen who haul flying trapezes through the sky to snare capsules which have orbited in outer space have made six such catches, the latest Saturday.

Capt. Warren C. Schensted, 32, of Glenwood, Minn., commanded the JCI30 turboprop which caught the precious 110-pound payload of Discoverer 32 at 9,000 feet Saturday.

The polar-orbiting capsule, fired aloft from Vandenberg Air Force Base in California contained a variety of items to determine the effect of exposure to space radiation.

Natives of the Fore tribe of New Guinea "die laughing"—and it's no joke. Among them, a fatal disease is on the rampage. Symptoms are paralysis and peculiar fits of giggling. The disease is transmitted only by inheritance. To control it, Fore tribesmen are prevented from marrying outsiders. Authorities have fenced off the whole tribe in one of history's strangest quarantines.

## It's The Truth!

A philosopher said, "Life is a gamble, but the winner in life seldom, if ever, wins by chance. Behind just about every winner is long perseverance, discipline, and planning." Too true, and when you do business with us a winning combination for you. We cannot win unless you do. We have long known that we win only when your economy and satisfaction is so great that you recommend us and come back again and again yourself. ## Political Crisis Confronts Turkey

ANKARA, Turkey (AP) — Turkey's two major parties were running neck and neck today for control of Parliament, indicating that the nation faced a new political crisis.

At least 10 million Turks turned out for Sunday's parliamentary elections to restore civil government after 17 months of rule by a military junta.

The new right-wing Justice party was pressing former President Ismet Inönü's Peoples Republican party hard.

With neither major party near a majority in the assembly and the two not likely to get together

## Defectors Rewarded

TAIPEI, Formosa (AP) — The Chinese Nationalist air force today presented \$22,500 worth of gold bars to two members of the Chinese Communist air force who defected and brought a small crop-dusting plane with them Oct. 7.

The Nationalist air force has a schedule of payments it makes to defectors and bring along a plane. The amount of the award depends on the type of plane.

## Hollywood News, Views

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP) — Gene Autry rode to fame with his recording of "That Silver-Haired Daddy of Mine." I expected him to look like the song after a year in big league baseball.

But no. His sandy hair was merely flecked with gray. His step was sure, even in his high-heeled boots.

## Backer of Angels

"I'm not hurting," he said calmly.

Numerous experts predicted he would be, after his first season with the Los Angeles Angels. He and associates put up \$2.5 million — others invested a like amount — to found the new American League team. What they got was a grab-bag of players from other teams and an undersized—20,000 capacity—ball park to play in — Wrigley Field.

"Put we'll show a profit on our first season," Autry reported. "I think we did pretty good, considering."

"Lots of folks were predicting we'd only win 40 or 50 games. We won 70. I think we would have done even better except for some bad luck."

"The team went east early in the season and got rained out several days. That meant they weren't getting enough exercise and then they had to play a lot of doubleheaders, which is hard on the pitching staff. By the time they got back here, they practically had to have spring training all over again."

Home attendance was a disappointment, he admitted — about 600,000 while 800,000 or a million was hoped for. The location of the park was the principal cause, he said.

But wait until next year, Autry said, echoing a familiar phrase. In 1962 the Angels become Stadium mates with the National League Dodgers in Walter O'Malley's Chavez Ravine stadium, capacity 56,000.

"I think we should draw a million next year," the cowboy star said.

## Worth Millions

Sitting behind the desk of his Toluca Lake office, Autry, now 54 and worth several millions said: "I only made three appearances as a performer during the year," he remarked. "That's about all the time I could spare. I devoted a lot of time to the team, making speeches at Little Leagues and hot stove leagues. And we have a weekly meeting of the Angel management, where we discuss plans and problems."

"I don't plan to do much performing next year, either. I want to help get the team started. Later I can go back to being an actor."

Another son and daughter were among the injured.

Killed in the crash Saturday were Mrs. Nellie Smith, 33, of Withers, and Donald R. Hutchins, 22, of Otter Lake, Mich.

Her son, Richard, 16, and Peter Vanderhoof, 21, of Westport, died Sunday in Ticonderoga Hospital.

State Police said a car driven by Vanderhoof and one driven by Mrs. Smith collided on a curve.

The other son, Robert, 21, who was in Vanderhoof's car, was reported in fair condition in the hospital and a daughter, Joan, 13, was less seriously hurt.

Michael Vanderhoof, 13, brother of Peter, was reported in critical condition.

Hutchins, a Navy Seaman, and Robert Smith were stationed aboard the U. S. S. Lake Champlain at Quonset Point, R.I. Peter Vanderhoof is a seaman on the U. S. S. Jallao at Groton, Conn.

A roast beef dinner will be served at 6:30 p. m. and preceding the dinner a cocktail hour will be from 5:30 to 6:30 p. m. Mrs. Dorothy Darrow will render piano selections during the dinner.

Chairman Dewey Logan urges all realtors and their salesmen who have not made reservations to call Robert Kershaw, ticket chairman, at 241 Wall Street as reservations close Tuesday morning, October 17. President Raymond Korzeneder urges all members to make a special effort to attend.

Benjamin Krom will be toastmaster.

Several items of major importance will be considered at the postponed meeting of the Kingston Area Chamber of Commerce Board of Directors tonight.

Beaues of the importance of the items Chamber president Joseph E. O'Connor urged a full attendance.

Among the items on the agenda are the following: The possibility of organizing a non-profit Industrial Development Corporation to promote industrial expansion; action on the eight special propositions to appear on the election ballot in November, including Local Question "A" and a check-up of Chamber membership.

The meeting starts at 7:30 p. m. in the Governor Clinton Hotel.

## Copter Rescues Nine in Sound As Craft Sinks

PORT JEFFERSON, N.Y. (AP) — A Coast Guard helicopter picked seven chilled and tuckered sea scouts and two adult leaders from Long Island Sound after their 36-foot cabin cruiser sank in heavy waves Sunday.

The nine were treated at a hospital for exposure and none were reported seriously affected.

The seven scouts — New York City boys aged 14 to 16 — their scoutmaster and assistant scoutmaster were in the cold water a mile from shore for more than a half hour before the helicopter arrived.

The helicopter, which came from Floyd Bennett Field in Brooklyn 45 miles away, pulled the men and boys from the water one at a time in a basket lowered on a cable by a winch.

After the aircraft picked up six boys, it flew to the Long Island shore and deposited them on the lawn of a home where a child's birthday party was being held. Then the helicopter crew went out again and picked up the other three from the water.

All were given hot coffee at the lawn party before being treated at Mather Memorial Hospital, Port Jefferson.

## West Berlin Commander Not Worried One Bit, He Declares

WASHINGTON (AP) — Silver-haired Maj. Gen. Albert Watson II, the U.S. commander in Berlin, has poise and humor and quotes poetry.

He's also a rough and tough fighting man, a veteran of two wars.

And he's very confident that West Berlin will continue to stand free and grow economically.

"I'm not worried one cotton-picking bit," he says.

Watson accompanied Gen. Lucius D. Clay, President Kennedy's personal representative in Berlin, on a tour of the city's Communist-controlled Eastern Sector Sunday night. This was an apparent demonstration of Western rights to move freely in all parts of the divided city.

Born Jan. 5, 1909, the former Mount Vernon, Ill., boy has packed a lot of action into his 52 years. There were the dirty, bloody days of World War II at Hollandia, New Guinea, Leyte and Okinawa. And then, less than a decade ago, the bitterly cold winters of war in Korea.

Watson started soldiering as an artilleryman, but the many assignments that followed have qualified him, literally, as a general officer.

Midway in his career he was

### Sanford Praises No. 3 Fire Setup At Open House

Locating homes in areas like that served by Woodstock Fire Company No. 3 in Lake Hill can sometimes be a difficult task for firemen, but the citizens showed excellent judgment in placing the present fire house, retired Deputy Fire Chief Harold A. Sanford of Kingston said at the company's open house Saturday night.

The occasion was the observance of National Fire Prevention Week by the volunteer fire company and its auxiliary.

Sanford praised the company for the excellent location system it has worked out, but noted that the fullest cooperation of the citizens is needed to insure speedy, effective fire fighting. He urged the group to give the proper location of their residence and describe what type of fire it is. And he warned, don't try to put out a fire alone.

Sanford said that of the 11,560 fire casualties reported in the United States in 1960, more than 6,000 were children who died in fires in their homes. This

was the result of pure negligence on the part of families and parents who leave small children alone. Parents who smoke should take precaution against leaving matches around where small children can pick them up.

#### Praises Decals

Praising the people for the wonderful job in locating the firehouse in the No. 3 area, Sanford exhorted his listeners to give the firemen their complete support. Fires should be reported as soon as possible.

Sanford also had high praise for the decal system for identifying residences which house an invalid. The system was recently adopted by Company No. 3. The fire chief said there should be no cause for embarrassment where residences display the decal. These enable the firemen to ascertain that somebody in the house has to be removed and firemen will make the supreme effort.

Sanford was introduced by Thomas J. O'Brien, general chairman of the open house program. Approximately 100 adults and 35 youngsters attended the day long activities. During the afternoon, the youngsters engaged in a poster coloring contest.

Six prizes will be awarded to the best coloring of the National Fire Prevention Week posters at a Halloween dance Saturday, Oct. 28, at the Bearsville Lodge hall.

### Registration Hits 2010 Total At Woodstock

A record breaking total of 2010 voters have registered for the Woodstock township elections on November 7.

The 1961 total is nine more than for the 1960 presidential election.

The first district which includes Woodstock village registered 1967, five less than in 1960, but the second district which includes Lake Hill, Shady, Zena, Wittenberg and parts of Bearsville had 1043 registrants, an increase of 14 over 1960.

More than 153 new names appear on the first district rolls. Many other names were removed from the rolls because of ineligibility on various grounds.

### Jackson Urges Big Attendance At Film Showing

The widely discussed film, "Operation Abolition" will be shown Tuesday night at 8 o'clock at town hall in Woodstock under the sponsorship of the Holy Name Society of St. Joan of Arc and St. John's churches in West Hurley and Woodstock.

The documentary film was prepared by the House Un-American Activities Committee and deals with the student riots in San Francisco when the committee held regional hearings there. There is no admission charge and the public is invited.

Commenting on the film, Bill Jackson, chairman of the committee preparing the program, said:

"Operation Abolition" is what the Communists call their current drive to destroy the House Committee on Un-American Activities to weaken the Federal Bureau of Investigation, to discredit its great director, J. Edgar Hoover, and to render sterile the security laws of our

government. The Communist Party has given top priority to "Operation Abolition" and has assigned agents trained in propaganda and agitation to this project. The Communist infiltration and agitation tactics among youth as described by Hoover in his report, "Communist Target Youth" constitute just one extension of this Communist campaign which is a challenge to all patriotic Americans.

### Temperance Unit Urges Age Limit

JAMESTOWN, N.Y. (AP)—The newly elected president of the State Women's Christian Temperance union says her organization will continue to press for a minimum drinking age of 21 in New York State.

Mrs. Barbara L. Waters of Syracuse said 27 drinking drivers under 21 caused accidents resulting in 30 deaths in the state last year.

She told the WCTU's 87th annual state convention Saturday that 29 of 38 state senators questioned by the temperance organization said they would support raising the minimum drinking age from 18 to 21 if it came to a vote.

Mrs. Waters said the failure of an age minimum bill to get out of the Senate's excise committee last year was a "blow to democracy."

Other officers elected by the 15,000-member state WCTU: Miss Alice A. Palmer of Unadilla, vice president; Mrs. Maude M. Coxwell of Syracuse, recording secretary; Mrs. James A. Crawford of Buffalo, corresponding secretary; and Mrs. Dorothy Baxter of Sloansville, treasurer.

### FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath." Get FASTTEETH at drug counters everywhere.

### Court Upholds Racial Rulings

WASHINGTON (AP)—The Supreme Court affirmed today a decision holding unconstitutional two acts of the Louisiana Legislature designed to aid that state's efforts to prevent racial desegregation.

The decision was given May 4, 1961, by a special three-judge federal court in New Orleans. It was appealed to the high tribunal by Louisiana Atty. Gen. Jack P. F. Gremillion.

The Supreme Court, however, affirmed the special tribunal's ruling without the hearing of arguments. In a brief order, the high court said a motion by the United States to affirm was granted. The action apparently was unanimous.

The special court ruled two acts of the 1961 second extraordinary session of the legislature were "invidious weapons of a state administration dedicated to scuttling the modest program of desegregation which has been initiated in Orleans Parish."

It added that the legislature clearly wanted parents, teachers and other interested persons to understand they would be punished if they had any contact with an integrated school.

Gremillion's appeal questioned, among other things, the Justice Department's intervention in racial litigation in federal court in Louisiana. It contended the United States took part in such cases without authority in law and equity.

### Says Public Funds Pays Press Meals

BUFFALO, N.Y. (AP)—President Kennedy's luncheons for newspaper editors and publishers are a use of "taxpayers' money for propagandizing," charges Republican National Chairman William Miller.

Rep. Miller commented Sunday night on a statement Saturday by Presidential Press Secretary Pierre Salinger that the luncheons are paid for out of the presidential entertainment allowance.

Miller described the luncheons as a "huckster idea" and added: "With all this talk about raising taxes for national defense and so on, . . . here is an area where some money can be saved."

Kennedy had a third such luncheon Friday with 21 newspapermen from Missouri as his guests. Previously he had entertained two groups from Kentucky and New Jersey.

#### Benn Still Critical

The condition of Frederick Benn, 20 of Clermont Street, Saugerties, reported as critical but satisfactory last week at Albany Medical Center where he is under treatment for automobile accident injuries, was reported as critical but only fair today. Benn and his brother, Roger, 19, were involved in an automobile crash on Route 9 in Stottsville, Sept. 24. Roger wasn't seriously injured in the mishap.

### P-TA Plans Session

Talks by Franklin H. Hazard, assistant superintendent of Kingston School District (Consolidated) and Mrs. Frieda L. Dingee, principal of School No. 7 will highlight a meeting of the School No. 7 P-TA Tuesday, Oct. 17 at 7:30 p. m. in the school. The session will open with visits to the various classrooms. Hazard will speak on the "School Budget" and Mrs. Dingee will tell the parents about a proposed Ulster County Community College. Mrs. Donald Williams is in charge of refreshments.

### Two Guard Units Ordered to Duty

WASHINGTON (AP)—Two National Guard divisions and 249 lesser reserve and guard units have started a stretch of active duty that could last up to 12 months.

Called to duty Sept. 19, the units reported Sunday to Army posts scattered across the country. In all, about 73,000 Army reservists and guardsmen were involved, bringing to 155,000 the number of Army, Navy and Air Force Reserves called to duty to increase U.S. military strength.

Both the 32nd Infantry Division of Wisconsin and the 49th Armored Division of Texas reported Sunday. The 32nd will train at Ft. Lewis, Wash., and the 49th at Ft. Polk, La.

In announcing the callup, Secretary of Defense Robert S. McNamara said that if world conditions improve, the reserve troops may not have to stay on duty 12 months. That was the time limit congress placed on the callup in authorizing President Kennedy to add 250,000 men to active duty status.

#### Bruhn Satisfactory

Fred W. Bruhn, 51, of 53 Jefferson Avenue, continues to progress satisfactorily, Albany Medical Center reported today. However, he is still on the critical list. Bruhn, a court stenographer, was stricken with a heart attack in the chambers of his brother, Supreme Court Justice Louis G. Bruhn, in the Albany County Courthouse on Sept. 25.

### Says Reds Claim Russia Is Model

NEW YORK (AP)—Welfare Secretary Abraham A. Ribicoff says the United States is superior to the Soviet Union in general welfare programs but has a tendency to apologize for its accomplishments in this field.

Ribicoff said Sunday night: "Instead of telling — indeed shouting — our American story, the story of our advances in and our concern for health, education and welfare, we apologize for them."

The Soviet Union, he added, "is telling the world it is the model for the state which has the greatest concern for the welfare of every man."

### Ellenville Man Hurt in Mishap

Harry Gorman, 44 of 30 Park Street, Ellenville, was reported in critical condition today at Veterans Memorial Hospital, Ellenville with multiple injuries suffered in a Sunday morning automobile accident on Route 52 about a mile east of Ellenville.

State Trooper Joseph Ellsworth said Gorman suffered a fractured right leg, left foot and hip, received a possible skull fracture and lacerations of the head and face when his car heading west left the road. The trooper said it struck a guard rail, careened into a utility pole, struck a bridge railing, went off the bridge and struck an abutment finally coming to a halt 50 feet down the embankment. The accident occurred about 4:30 a. m. Sunday.

#### 3.5 Million Register

NEW YORK (AP)—New York City has 3,511,240 potential voters registered for the Nov. 7 election of a mayor and other officials.

A four-day registration period that ended Saturday put 303,383 names on the rolls. These were added to the 3,207,857 names already on the rolls through permanent personal registration.

Bob Considine was an innocent bystander at the fracas in an uptown gin mill that followed close on the heels of the 1949 football game between Notre Dame and North Carolina in New York's Yankee Stadium. A well-lubricated Southern gent kept shouting, If Choo-Choo Justice shoulda played today, our boys woulda run those Notre Dame fellas cleah off the field. A Notre Dame alumnus finally tired of this raucous routine, poked the Southern gent in his midriff, and observed, Mister, we could beat North Carolina with our Protestant squad!

This is the way the agent got a lesson in manners. He called at a business office, and saw nobody but a prepossessing though capable appearing young woman. Agent--Where's the boss? Young Woman (politely) -- What is your business? Agent (snapped) -- None of yours! I got a proposition to lay before this firm, and I want to talk to somebody about it. Young Woman -- And you would rather talk to a gentleman?

Agent--Yes. Young Woman (sweetly) -- Well, so would I. But it seems that it's impossible for either of us to have our wish, so we'll have to make the best of it. State your business, please!

## Steve Allen Will Salute 700,000 Newspaper Boys

Steve Allen pays tribute to the nation's 700,000 newspaperboys this week when he presents a salute to Newspaperboy Day as one of the highlights of his Wednesday, Oct. 18, telecast of "The New Steve Allen Show" on ABC Television (7:30-8:30 P. M., PST).

Designed as an important addition to America's annual tribute to the press throughout National Newspaper Week, Newspaperboy Day will be spotlighted on Steve Allen's television program by the premiere, coast-to-coast appearance of the American Jazz Society band, which is made up entirely of teenage youngsters representing ten West Coast newspapers. The organization, according to Steve Allen, typifies the calibre of industrious, responsible young citizens who sell, distribute and collect for approximately 43,000,000 newspapers throughout America every day.

Allen will also take this opportunity to further cite newspaperboys all over the country for their contributions to their respective communities and their ability to set a healthy example for schoolmates from primary grades through junior college.

Mr. Allen also notes that the newspaperboys' American Jazz Society Band has already won many honors at top flight jazz festivals in addition to being acclaimed as one of the most talented young bands of today by leading musicians.

Organized by Donald Erjavec, a Compton, California, high school teacher, the 18-piece band was formed from over 300 newspaperboy musicians who turned out for auditions.

The bandmember's goal, according to Erjavec, is to gain recognition for their group by the U. S. State Department so that the newspaperboys might be selected for a tour of Europe as an example of worthwhile American youth activities.

## DO YOU REMEMBER

By SOPHIE MILLER

From time to time I run through some old items that readers send me, which I have a feeling I did not use as yet. I looked in an envelope from City Engineer, A. F. Hallinan, of the City Hall, Kingston. One item I found there I feel I have never used before, although I received these items about a year ago. This item, is the "Defense Supplement of the Catskill Mountain Star" of Saugerties, New York, dated Friday, Nov. 1, 1940, that is 21 years ago.

This is a one page sheet with a soldier's picture which gives the draft registration numbers from 1 to 1844. The first name is Harry Cavanaugh Ackerley, Lew. Beach, Charles Locke Misasi of Glasco is No. 2. Ralph Wicks Harrison of Woodstock is No. 3. At the bottom of the page it says: "This supplement which will be used for the next five years may be kept for future reference." In the center of the page it gives the "Selective Service Board, Grant D. Morse of Ulster Avenue, William R. Johnson of Ripley Street, and Miss Rosemary Doyle, Clerk Draft Board Office, all of Saugerties, Charles R. Roach, R.F.D. 3, Box 38 of Kingston.

I tried looking for names I might know. I see for No. 1832, Jerome Saul Jaffe of Saugerties, I think he was a WJNY announcer when I worked at the station. I see for No. 1334 James Duncie Gaddis of Ulster. Joseph Edward McTague of Kingston had No. 1306. Joe McTague's father, I think had a newspaper and tobacco store next to us down at 48 Broadway. No. 1497 was Jay Elmer Molyneux, of Woodstock.

For No. 1582 is David Christian Schoentag, of Saugerties. No. 1681 is for Francis Martocci of Woodstock, 828 Norman Towar Boggs, Woodstock. Most of the names seem to be either from Woodstock or Saugerties.

Another item in this envelope is a newspaper called just "The Press" dated Monday, June 20, 1892, published in New York City at 38 Park Row. The campaign was in full progress according to this paper. It has in large letters: "Our candidates: For President, Benjamin Harrison of Indiana, for vice president, Whitelaw Reid of New York."

The Press was boasting of having "the largest circulation of any paper in the United States" in 1892. At the top of the page in big letters they print "Average daily circulation of The Press, last week, 108,387."

This may be interesting to read today. An item of 69 years ago reads in part: "Providence, June 15. The class dinner of Brown Uni-

versity students at an uptown cafe Friday night was one of the wildest and most disgraceful orgies ever seen in this town. All the china and glassware, with the chairs and tables, were smashed. The students will have a big bill for damages to settle."

The local forecast of the U. S. Weather Bureau report for The Press was on the front page. For June 20th, 1892, it read: "local showers, followed by fair; and warmer. For June 19th, highest temp. 83 degrees, lowest 58; average 70. Average temp. for same date for 20 years, 70 deg." A funnel shaped cyclone in Iowa tore a wide swath through a forest of large trees, no lives lost, but much destruction of property. Much that bothered folks years ago, mainly the weather, still controls our lives today.

## Health for All

### What Happened to the First Square?

A glass of juice, a cup of coffee and a dash of the door...that's become the average American breakfast. Yet three square meals a day have long been our symbol of success. Heaven knows, everyone from teenager to pop needs to start the day with a substantial meal if he is to get through to his mid-morning snack, let alone lunch.

Sure, the juice is needed for its Vitamin C. The coffee helps pep you up and makes the day look a little brighter. But you also need more—perhaps enriched or whole grain cereal with milk, and at least one egg.

If you've been a juice-and-coffee breakfaster all your life, this menu is going to seem impossible. Just the time it takes to get it down! Well, get up a bit earlier. You can do it.

For the first few days you may have to force the stuff down. But after a bit it will get to taste like food. Before you know it, you'll be enjoying it, and you'll wonder how you ever did without it.

Weight watchers needn't get alarmed either. Substitute skim milk for whole milk on the cereal. Make that egg boiled or poached rather than scrambled or fried. You'll find you may even be able to skip that second breakfast at the office and you will no longer be so ravenous that you overeat at lunch.

### False Alarm

DULUTH, Minn. (AP)—Three squad cars were at the scene in less than two minutes after a burglar alarm sounded at the Northern City National Bank here—just in time to surround three men wheeling a safe out the back door. But the trio turned out to be members of a contracting firm remodeling the bank building. The safe was an old one being hauled away as junk. A janitor had accidentally tripped the burglar alarm.

### THE WILL TO SPECULATE

The will to speculate is rampant in America. And with inflation being so freely discussed, this will is growing rapidly.

A year ago my bootblack, a cheery loquacious fellow, asked me a dozen times for the name of a stock that would "go up." His persistence overcame my reluctance and I mentioned a cheap "dollar" stock. He bought 100 shares for 1/4 of a dollar plus commission and in no time it hit \$4.

He sold out at \$4 and almost immediately he lost interest in his trade. "Shine shoes for 25 cents," he remarked, "when I make \$300 in a hurry?" And his lucky success has infected a score of others in his social and economic class.

This desire to gain quick and easy riches pervades higher echelons of society. There are hundreds of organizations in America urging investors to use the stock market as a medium of profits. In doing so they are fostering habits entirely incompatible with thrift and saving.

Half of the letters I receive from readers of this column deal with anticipated speculation or with unsuccessful risk-taking. There are five letters on my desk now saying something like this: "You must know of some stock that will have a good move soon."

Such thinking is dangerous in our country. For it comes from those whose savings are precious and probably should be on deposit with a sound savings institution.

Just as our thinking about the space age, segregation, financial self-reliance and nuclear war is rapidly changing, so are the ideas about investment and speculation being modified. Risk-taking is becoming fashionable in circles where people can't afford to lose.

A bootblack, making \$300 with \$100 in less than 100 days, indoctrinates a score of his peers into a dangerous speculative world and helps to destroy the very virtues of thrift and saving they should be practicing.

Likewise, a middle-aged mechanic in a far higher social and economic world than the bootblack takes \$5,000 of his hard-earned savings and buys three "glamor" stocks that luckily advance sharply in price. He, too, eases off in his work with speculative profits completely changing his judgment.

Thrift and saving should be in the very center of the lives of many today who are either flirting with unsound speculation or actively engaged in it.

Well, when can a person logically speculate? He should have cash resources in banks and savings institutions to pay his expenses for at least six months. A year is better.

He should carry adequate insurance.

He should own some high grade, dividend-paying common stocks of America's greatest corporations.

After that the time may come when, under the guidance of a banker or broker, he may buy a value carrying risk and growth for the sake of reaping a long-term capital gain.

But to speculate with savings is usually an unfortunate experience. Speculators are those who can afford to lose and who are looking for profits and not income.

### 3 Brothers Wins Three From Raceway Squad

#### Kingston, PHS Tilt Postponed: No New Date Set

Saturday's rain forced Poughkeepsie High school coach Sam J. Kalloch to postpone his team's scheduled game with Kingston High at the Bridge City gridiron. The contest was postponed shortly before 12 o'clock.

Athletic director G. Warren Kias said this morning that a new date has not been set as yet. Poughkeepsie wanted to play this afternoon but the Maroon squad is listed for a contest Friday night at Port Jervis, thus making it impossible to play two games within four days.

Kingston has an open date on Saturday, Nov. 4 and Poughkeepsie is listed to play Beacon on that date. That's the only open date for the locals, who face Port Jervis this week, play at Mont Pleasant next week and meet Middletown on Nov. 11 before concluding their season with the Thanksgiving Day against Newburgh.

All other football games scheduled over the weekend were played.

#### Nyack Wins Pair From Manhattan

Nyack won a pair of exhibition games from Manhattan Bowling Balls yesterday at the Bowlerama to avenge a defeat the previous week. Only Rose Schatzel was consistently good for the local women. She slugged 199-181-205 for 585.

### Winners Take Early Margin In DCSL Tilt

Sophomore tackle Charles "Call me Chuck" Schirmer intercepted a pass on the Cardinal Farley 26 on the first play of the game and fled into the end zone to spark Saugerties High to a 26-6 DCSL win over the visiting Cadets Saturday. The win was the fourth straight for the Sawyers this season and their 11th in a row since an opening tie with Red Hook last year.

Al Hrdlicka, the triple talented back for Coach Fred Seither, added another first period touchdown when he ran 23 yards. Big Al converted after the initial touchdown.

The home side struck again in the third period with Hrdlicka passing 20 yards to Bill Schirmer, Chuck's older brother. Fullback Doug Robinson put the icing on the victory cake with a one yard plunge in the fourth period to climax an 80 yard drive. Hrdlicka then converted.

The Cadets, who were in their own territory most of the rainy afternoon, moved downfield after the final Saugerties touchdown and they scored on the final play of the game when Norb Dalkiewicz passed 12 yards to Devin Crowley.

### 'Win or Else' Is Situation In AFL Action

By HAROLD V. RATLIFF  
Associated Press Sports Writer

The oldie that "winning isn't everything—it is the only thing" seems to be working in the American Football League for San Diego and K.S. (Bud) Adams, owner of the two-frequently losing Houston Oilers.

San Diego just goes out and wins them all so there'll be no doubt about it.

Adams demands that his team win or else there's a new coach—a tie won't get the job done. Not even if it's a 31-31 tie that turns into about the wildest, most thrilling offensive struggle of the year.

Adams reportedly told his coach, Lou Rymkus, that he had to beat Boston last Friday night or he was through. Hence the firing of Rymkus since there was only a tie.

Another coach, Frank Filchock of Denver, may have escaped the axe when Jack Hill kicked two field goals in the final three minutes, the last with eight seconds to go, and the Broncos beat Oakland, 27-24. Filchock reportedly had been in the same situation as Rymkus.

Dallas had a couple of good ones while losing to Buffalo 27-24 Sunday. It was enough for the Texans to fight about—losing to the likes of Buffalo when a victory could have put Dallas back solidly in the race.

Anyway, twice in the last minutes the benches emptied at Buffalo, and once the linemen just stood across from each other and tried to see how hard and whom they could hit.

San Diego rolled merrily onward with a 25-10 victory over New York. It was San Diego's sixth straight and was achieved like most of the others—on the passing of Jack Kemp and the running of Paul Lowe.

New York's loss did not drop the Titans out of first place in the Eastern Division, but it did cut to a half-game its margin over second-place Buffalo.

### Green Bay Ace Scores 4 TD's Against Browns

By JACK CLARY  
Associated Press Sports Writer

Jim Taylor won his head-to-head duel with Jimmy Brown, and there won't be many dissenting opinions today as to who is the best fullback in the National Football League.

Taylor scored four touchdowns, picked up 125 yards and stretched his lead as the NFL's leading ground gainer as he led the Green Bay Packers to a 49-17 beating of the Cleveland Browns Sunday.

Brown, who has been undisputed king of the NFL rushers the past four years, didn't score and gained only 72 yards in 16 tries. He has now gained 387 yards in 96 carries, while Taylor has rolled up 581 in 81 tries.

But as much as the former Louisiana State star meant to Green Bay, Bill Killemer did just as much for the San Francisco 49ers, also scoring four times in a 38-24 slugfest over the Minnesota Vikings. The Packers and 49ers are tied for the Western Conference lead with 4-1 records.

New York and Philadelphia are deadlocked for the lead in the East after the Giants routed Dallas 31-10 and Philadelphia won over St. Louis 20-7. Both have 4-1 records as Dallas and Cleveland dropped to second place with 3-2 records.

Pittsburgh won its first game, 17-0 over Washington, the only NFL club without a win, while Detroit eased by Los Angeles 14-13, and Chicago's resurgent Bears clipped Baltimore 24-10.

Green Bay scored touchdowns the first four times it had the ball, and Taylor got three of them on runs of 25, 7 and 45 yards. Paul Hornung, the NFL's leading scorer, got the other and upped his point totals to 77 with six extra points.

The Browns had not allowed a touchdown on a ground play until Green Bay's tremendous offense rolled in before 75,042 at Cleveland Stadium, the day's largest NFL crowd. When it was finished, the Packers had ground out 216 yards, nailing down the triumph with three third-period touchdowns that were set up by a pass interception and two recovered Browns' fumbles.

The Giants, tied 10-10 at the half, stormed home in the second half, stormed home in the second half, stormed home in the second half, stormed home in the second half, stormed home in the second half.

### Highland Beats Liberty, 6-0

Reserve halfback Phil Gian-grasso scored from the three late in the third quarter as Highland nipped Liberty, 6-0, at the Sullivan County field Saturday in the rain and mud.

Both clubs splashed through a scoreless first half and it looked as if neither side would score until the Highlanders marched to the end zone in the third period. Coach Bob Relyea's boys had other chances but they didn't cash in.

Highland has a 2-2 record to date.

### Annual Awards At Twaalfskill

Annual awards were presented at the closing luncheon of the Twaalfskill Club's women's division.

Mrs. William D. Harris was cited as 1961 club champion and will receive the trophy at the annual President's Dinner. Mrs. Ernest Schirmer was the runnerup.

Divisional winners included: Class A—Mrs. Elizabeth Chilson, champion; Mrs. Edward Minasian, runnerup. Class B—Mrs. John Purvis, champion; Mrs. Albert Flanagan, runnerup.

Tied for first place in the annual Ringer tournament were Mrs. Chilson and Mrs. John D. Schoonmaker Jr., with 66. Mrs. George Rusk was third with 67.

Mrs. Arthur Hazenbush, women's golf chairman at Twaalfskill, presided at the luncheon. Alex Gerlak, club professional, was a guest.

The championship Poughkeepsie Ho-Bos swept all individual honors in balloting conducted by New York-New Jersey Baseball League officials here over the weekend.

Dave Centi, a 405 slugger, received the Most Valuable Player award by a 4-2 vote over teammate, Tom Acker, who was a unanimous choice for Pitcher of the Year.

Howie Mann, Ho-Bo infielder, won the batting crown with a .420 mark and Billy (The Kid) Ostrom was a unanimous pick for Manager of the Year.

Aside from the Centi-Acker contest for MVP, no other players or managers were considered by the NY-NJ officials.

The annual awards will be made at the league banquet Saturday night at the Elks Lodge in Poughkeepsie.

Centi, a former minor leaguer, was the league's top slugger in virtually every department. He collected 30 hits in 74 at bats, led with 28 runs batted in and had six doubles, 4 triples and three home runs.

Mann won the batting championship with 21 hits in 50 at bats, the minimum required by the rules.

Acker, former Cincinnati Reds relief pitcher, was unbeaten during the 1961 season. He won 12 straight decisions with impressive statistics. He appeared in 105 innings, allowed 66 hits, 26 runs (18 earned); walked 28 and was far out in front with 131 strikeouts.

Ostrom, the hardy perennial, batted .375 in addition to expert juggling of the Poughkeepsie roster. The Ho-Bos lost only one during the season and swept two straight from the Kingston Braves in the championship playoff.

### Italy Is Hoping To Win Cup Berth

ROME (AP) — To 25-year-old Jon Douglas, the sixth ranked U.S. tennis player, fell the job today of halting Nicola Pietrangeli's one-man drive to take Italy into the Davis Cup challenge round.

Douglas and the 28-year-old Pietrangeli, Europe's top amateur, were matched in the first singles match as the Davis Cup interzone final went into its last day with favored Italy leading the United States, 2-1.

A victory for Pietrangeli would clinch the competition for Italy and put the Italians in the challenge round against Australia for the second year in a row.

A victory for Douglas would leave the teams tied 2-2, and all would depend on the second singles match between Whitney Reed of Alameda, Calif., and Italian champion Fausto Gardini.

Douglas, of Santa Monica, Calif., won the lone U.S. point of the first three matches by beating Gardini, 4-6, 4-6, 7-5, 10-8, 6-0, last Friday.

Pietrangeli gave Italy two points by beating Reed in singles, 2-6, 6-8, 6-4, 6-4 and by carrying the brunt of the load as Italy won the doubles match yesterday.

The husky Pietrangeli teamed with Orlando Sirola to defeat Reed and Donald Dell of Bethesda, Md., 6-4, 3-6, 6-3, 6-2.

# Rondout Whips Wallkill, 18-6; New Paltz Defeats Marlboro

## Ganders Rally For UCAL Win Over Visitors

After spotting the visitors a first period touchdown on a sensational 65 yard pass play from Ed Mooney to Paul Gaffney, Rondout Valley's Ganders struck for scores in the final three quarters to beat Wallkill, 18-6, in a UCAL clash Saturday.

Wallkill had entered the contest with three straight shutouts and as many easy victories. The visitors tallied in the opening period and seemed headed for another win when the Ganders got hot.

End Lynn Johnson intercepted a pass in the second quarter and raced 40 yards to put the ball near the goal line. On the second play from the three, Ricky Spada bulled over the tying score.

Quarterback Mooney, the sparkplug for the losers, was hurt in the third period and it was a big blow for Wallkill. The home side moved ahead in that quarter with Jerry Craig taking in from the five. The play was set up by Craig's 20 yard run and on the touchdown, quarterback Jim Brush and fullback Spada did some neat faking in the backfield.

Guard Eddie Black pounced on a loose ball for the third touchdown as he recovered it in the end zone. That one put the game out of reach and moved the Ganders back into the UCAL championship race.

Coach Chick Meehan praised the win as a team effort and cited Spada for his defensive play.

## Beacon Wins, 7-0, Over Wappingers

A wet and heavy field slowed down the Beacon High school ground attack but the Southern Dutchess County club pushed across a touchdown in the second quarter and nipped Wappingers Falls, 7-0, in a DCSL engagement on Saturday. It was the fourth straight circuit win for Beacon, which has league games with Roosevelt and Saugerties remaining to be played.

The home side started a drive at midfield in the opening period and early in the second quarter, halfback Richie Lunsford raced across from the three. Bert Exum then ran for the point.

Wappingers scored an apparent touchdown in the third quarter but a holding penalty nullified the score. The Indians went to the Beacon 18 later in the game but the drive was halted.

The Falls side outgained the Bulldogs, 109-78, but the final score is what counts and Beacon had the better of that important phase of the game.

The line score:

## Cronin Is Pin Winner

Winning his first five games with scores of 211, 248, 234, 222 and 197, Frank Cronin of Middletown captured first place in the Bowling Proprietors tournament at the 17-84 Lanes in Middletown with a final Peterson Point score of 112.42, well ahead of the runnerup tally of 107.12 posted by Jim Torelli, another Middletown kegler.

The tournament, which concluded yesterday, featured the top stars of the Hudson Valley. Cronin will represent this area in the national tourney, scheduled for Miami Beach in January.

Jack Ferraro of Kingston was in the running after four games of the final round. However, the machine broke on the alleys he was rolling and Jack was forced to fix the machine himself. It took 45 minutes and he wasn't effective when the action was resumed.

Biggest score in yesterday's round was 267-2420 by Joe Shier of Newburgh. Tom Carlino of Kingston made the best comeback. He was 3-9 the previous week and captured nine of 12 matches yesterday.

The final results:

Frankie Schneider of Flemington, N. J. won Sunday's season-ending 75-lap Open stock car championship at Lebanon Valley. The race, uninterrupted, drew nearly 6,000 fans despite 38 degree temperatures.

Schneider, 1960 Langhorne, Pa. 100-mile champion, won by a quarter lap over Dan Gillette of Brewerton, N. Y. Third place went to Lou Lazaro of Rome, with Rip Riley of Poughkeepsie, fourth.

Heat winners were: Joe Messina, Albany; Doug Garrison, Hudson; Jack Flach, South Westerlo. The consys went to Eddie Penecek, Schenectady; and Dan Mitchell, Poughkeepsie.

## Three Ex-Champs Fight This Week

By THE ASSOCIATED PRESS  
Three former champions, trying to move back into the fistful spotlight, resume action this week.

The three are Sugar Ray Robinson, former welterweight and middleweight champion; Virgil Akins, onetime welterweight king, and Brian London, the ex-British heavyweight titleholder. It's not going to be easy work for any of them.

Robinson, 41, takes on Denny Moyer, speedy, 22-year-old middleweight from Portland, Ore., in a television 10-rounder Saturday night at New York's Madison Square Garden.

Akins, 33, of St. Louis, invades Caracas, Venezuela, tonight for a ten rounder with Venezuelan welter champion Jose Burgos.

London, 27, faces the toughest opposition in Eddie Machen, third ranking heavyweight contender from Portland, Ore. They clash in a ten rounder at London's indoor Wembley Stadium Tuesday night.

## Onteora Central Gets Pine Bush Win, 12-9

Quarterback George Loveless fired two scoring passes to halfback Richie Johnson as Onteora Central rallied to nip Pine Bush, 12-9, Saturday at the Orange County gridiron.

The home side had zoomed to a 9-0 first quarter lead on a safety and a touchdown. The Indians narrowed the margin just before the half on the first of the touchdown passes and they won the verdict with their second score in the third period.

A bad snap from center on a fourth down kick sailed out of the end zone to give Pine Bush its first period safety. The home side then recovered an Onteora fumble on the 10 and went in for another score.

Loveless hit Johnson with a short pass in the second period and the speedster completed a 45 yard play by outracing the secondary to paydirt. Then in the third quarter the same pair clicked again, this play covering 30 yards.

Onteora had several other scoring chances but twice the team lost the ball on fumbles and another on downs. Loveless thwarted a last bid by the home side with an interception on his own 20 late in the fourth quarter.

Coach Bob Ryan said that Paul Stolpinsky did a good job on the line and cited Loveless for good work in the backfield. The Indians are now 2-2 for the season and will play Marlboro in a UCAL contest on Saturday.

The Onteora lineup:

Left end ..... Rowe

## Houston to Name New Coach Today

HOUSTON (AP) — The Houston Oilers are scheduled to name a new head coach today and all the rumors point to little Wally Lemm.

Lou Rymkus was fired as head coach Saturday and Fred Walther — earlier mentioned as a likely candidate to replace Rymkus — got his walling papers Sunday night.

K. S. (Bud) Adams, the millionaire owner of the American Football League's defending champions, said Rymkus was fired for not using the talent available to him in the best way.

He said Walther, defensive coach, was fired because of Houston's poor defensive showing in recent games.

Houston has won one game and tied another in five starts. Lemm was Houston's defensive coach last year but resigned this spring to go into the sporting goods business near his native Chicago.

Lemm has coached at every level from high school to professional, including tours with Notre Dame and the Chicago Cardinals as an assistant.

## Huguenots Gain 19-6 Verdict to Stay Undefeated

New Paltz Central's football team remained unbeaten and took another big step towards a UCAL championship with a 19-6 win over Marlboro Saturday. The Huguenots scored once in each of the first three periods and held the Ducks to a touchdown only in the third quarter.

The winners scored their first touchdown when Tom Weisz intercepted a pass and ran 20 yards. The extra point attempt was missed.

Clay Whitted, the flashy halfback, scampered 25 yards in the second quarter to post the second TD on the scoreboard and then Eddie Guidi ran for a PAT. This made it 13-0 at halftime.

Quarterback Biff Longfield, who has been injured much of the season, took the third period kickoff on the 20 and he galloped 80 yards to a touchdown. It was a nifty run and he was aided by several key blocks on the part of his teammates.

Marlboro then started a drive and a pass interference penalty against the Huguenots moved the ball inside the 15 and Angelo Monte took it over from the three late in the third period. The New Paltz defense stiffened after that and the Ducks never made another threat.

## Springfield Bows In Hockey Tilt

By THE ASSOCIATED PRESS

Old pro Ferny Flaman, player-coach at Providence, sparked on defense, scored on goal and assisted on another Sunday night as the Reds handed Springfield its first American Hockey League loss, 4-2.

In other games, Quebec opened with a 2-1 decision over Cleveland, Rochester won its third game of the young season, 2-1 over Hershey and Buffalo's Denis DeJordy turned in a shutout as the Bisons took Pittsburgh 4-0.

Flaman, long-time defensive star and captain of the Boston Bruins, staked the Reds to a 1-0 lead early in the first period of the rough game, and helped hold the defending champions in check until Danny Poliziani clinched it for Providence while each team was a man short in the third period.

Rookie Bruce Draper scored from close in on a power play for Rochester's winning goal against Hershey. It was Rochester's fourth straight one-goal decision.

DeJordy came up with 42 saves in his whitewash of Pittsburgh. He got scoring help from Barry Cullen, Larry Wilson and Billy Dea.

Center Skippy Burchell helped set up both Quebec goals in the Aces' opening victory over Cleveland.

In Saturday night games, Buffalo beat Pittsburgh 2-1, Hershey edged Rochester 5-4 in overtime and Springfield bombed Cleveland 8-2.

## Etiquette

BY SHARON KAY RITCHIE  
Newspaper Enterprise Assn.

The bowler's code of etiquette is not only simple, it's sensible.

There are just a few basic rules. Be gracious. Don't gloat if you win—and don't sulk or alibi if you lose. Keep cool. If you have to blow your top, take it out on the pins.

Give priority to the bowler on your right. If a bowler on the left is ready to bowl, however, let him complete his delivery before picking up your ball.

Stay in back of the foul line at all times. Stay in your own lane. Don't talk to your opponent after he's on the approach. Keep

the game moving. Be ready to bowl when it's your turn. After the ball has hit the pins, walk back promptly to the approach.

Keep snacks and drinks away from the bowling area. Be fair when you miss a shot. Don't blame the equipment. Never go on the lane without bowling shoes. Make certain they are free of foreign substances which might mar the lanes or mess up another's rolling.

Don't use another's ball without permission.

This is not only impolite, it can result in some first-class arguments.

## Worsley Shines For NY Rangers In 2-1 Victory

New York Ranger defenseman Al Langlois was talking about teammate Lorne (Gump) Worsley.

"He's a miracle man," Langlois exclaimed of the stubby little goalie whose 43-save performance sparked the surprising Rangers to a 2-1 National Hockey League victory over Toronto Sunday night.

"It's quite a feeling," Langlois, a former Montreal Canadian, continued, "having that guy behind you and (player-coach) Doug Harvey beside you. How can you go wrong?"

Had it not been for the squat little veteran in the nets, the Rangers well could have gone wrong. They built a 2-0 lead, then relaxed. The powerful Maple Leafs broke loose and only the Gumper's sure-handed, acrobatic performance bailed them out.

In other games Sunday night, Montreal came from behind to gain a 5-5 tie with winless Boston and Detroit came from behind a two-goal deficit and tied Chicago 2-2.

Claude Provost scored a third period marker while his Montreal teammates were short-handed to achieve the tie against Boston.

The score was tied five times before he got his stick on a loose puck at the Boston blue line and fainted rookie goalie Don Head out of position.

Boston's Don McKenney had two goals and an assist, and Montreal's Ralph Blackstrom one goal and two assists.

Detroit's Gordie Howe and Ed Litzenberger scored third period goals as the Red Wings tied Chicago, the second tie in two nights for each team. Defensesmen Bob Turner and Jack Evans got the early Chicago goals.

In Saturday games, Chicago and Detroit tied 3-3, Montreal took New York 3-1 and Toronto edged Boston 3-2.

## Sinclair Marries

Mary H. Willis, 79

CLAREMONT, Calif. (AP)—Not even the 104-degree heat subdued the glee of exuberant Pulitzer prize-winning author Upton Sinclair as he married Mary Hard Willis.

The bride was equally delighted.

A few friends attended the couple's wedding Saturday at St. Ambrose Episcopal Church. The bride, 79, was given in marriage by her brother, Dr. Frederick Hard, president of Scripps College, San Diego, is 83.

As photographers posed them, the writer remarked: "They're here because they're interested in our ages. They think it's picturesque."

"I didn't want him to have a child bride," quipped the new Mrs. Sinclair.

As many as 243 observances of the aurora borealis in a single year have been recorded in the central Hudson Bay region.

## Kennedy Arrives For Meeting With Finland Leader

WASHINGTON (AP)—President Kennedy flew back from a weekend on Cape Cod today for conferences with the president of Finland, Russia's western-inclined next-door neighbor.

The President's big jet landed after a flight of about an hour from Otis Air Force Base.

Kennedy was scheduled to remain at Andrews Air Force Base until Finnish President Urho Kekkonen arrived.

As he headed for the capital, Kennedy was understood to be planning a quiet conference with Prime Minister Nehru of India at his Hyannis Port haven next month.

Arrangements were being made for Kennedy to exchange views with Nehru both in Washington and in the seclusion of his vacation home the first weekend of November.

Kennedy is known to have been interested for some time in talking personally with the leader of the world's largest uncommitted nation in the cold peace, as he puts it, between the free and Communist worlds. The possibility of a get-together before the year ends has been in the wind since early summer.

President Ayub Khan, the leader of India's neighbor Pakistan, visited Washington in July. Nehru's trip may lack the ceremonial trappings of a state visit but would provide the opportunity for a face-to-face discussion, without formalities, of the Communist threat to Asia as well as the global aspects of the fundamental East-West conflict.

Mrs. Kennedy was going back to Washington with the chief executive to be hostess at a White House luncheon for President and Mrs. Kekkonen.

At an afternoon conference, Kennedy and Kekkonen were sure to discuss a third "K" in the family of government chiefs, Soviet Premier Khrushchev. He would naturally figure in the personal exchange over Finland's ties with the West from a position on the Soviet border.

The Kennedys, who may spend one more weekend on the cape, were kept ashore Sunday by dismal weather. Lt. Cmdr. Walter Slye, skipper of the presidential yacht Honey Fitz, reported sighting a few snowflakes in the drizzle and mist that clothed Nantucket Sound.

## Geologist Finds Mammoth Tooth

BIRMINGHAM, Ala. (AP) — Earl Faucett said he was walking along a creek bed fishing when he stepped on a hard object.

University of Alabama geologists examined the object and said it was a tooth from a mammoth—an animal that lived before the ice age and resembled an elephant.

The age of the huge tooth was estimated as between 12,000 and 500,000 years.

Most mammoth remains have been found in Alaska and Siberia. Faucett, of nearby Bradford, Ala., isn't saying where he found the tooth. He said he caught 12 bass that day, and he doesn't want a good fishing spot spoiled.

## Indignation Group

DALLAS, Tex. (AP)—The first meeting of the National Indignation Convention — formed to protest the training of Yugoslav pilots by the United States—drew about 1,200 persons Sunday night.

Frank B. McGehee, chairman of the group, told a cheering crowd "the entire United States is looking to see how indignant and resolute we are."

McGehee, a garage owner, was one of several persons who drove to Perrin Air Force base near Sherman Friday night to protest the training of Yugoslav pilots at the base.

## Windows Smashed With Stolen Cars

BUFFALO, N.Y. (AP) — Police said thieves stole two brandnew 1962 cars from a dealer Sunday, took them to a shopping plaza, and sent them hurtling through two store fronts by dropping 10-pound bricks on the accelerators.

No one was injured.

One of the cars smashed the front of a record shop. The car was wrecked and the interior and contents of the shop were extensively damaged, its owner said.

The other car rammed into the brick front of a self-service laundry. Both the car and the store front were extensively damaged, police said.

No one was in the stores, both of which were closed.

Police said no arrests had been made.

## Seeks Vengeance

WALLINGFORD, Conn. (AP)—Robert R. Nielson, 28, of Bridgeport, Conn., tried to patch things up with his former fiancée Sunday night. He failed.

So, police said, he went looking for vengeance on a source of his troubles.

He was arrested moments after he heaved a huge garbage can through a window of the jewelry store where he bought the engagement ring.

STORY HOURS BEGIN — The first story hour of the season was held at Kingston City Library Friday with Mrs. Robert A. MacKinnon, story teller. Story hours are held at the children's room every Friday 3:30 p. m. for children age 6 to 12. A picture book hour for children ages 3 to 5, will be held at the library every Thursday 2 p. m. beginning Oct. 19. (Freeman photo)

## Charities Group Attacks Orange Welfare Program

NEW YORK (AP)—A statewide association of private charitable institutions has attacked the controversial welfare program of Newburgh, N.Y., as "costly, destructive and retrogressive."

The attack Sunday by the State Charities Aid Association brought a strong reply from Newburgh City Manager Joseph Mitchell, author of the "get tough" welfare policy.

He advised the group "to limit their actions to that which the public can afford."

"Otherwise," Mitchell said, "we the taxpayers shall be the victims of the soft welfare approach, which can no longer be afforded by the public or by private agencies."

The Newburgh program, which Mitchell said was designed to shave chiselers off welfare rolls, was put into effect July 15. It has been temporarily restrained through court action brought by the state.

Among the program's more stringent provisions was one refusing aid to mothers of illegitimate children who continued to bear children out of wedlock.

In a report, the association said that "in the name of home rule, it (the Newburgh plan) would abandon much that is sound in public welfare and substitute discredited practices."

The report added: "Lack of minimum uniform standards could only lead to a refusing aid to mothers of illegitimate children who continued to bear children out of wedlock."

## Two Are Arrested Seven Hurt, 4 Hospitalized In Four Weekend Accidents

Seven persons were injured—four hospitalized—and two arrests made in four highway accidents reported during the weekend by Kingston state police.

In a unique mishap early Sunday, two Brooklyn youths were injured and hospitalized when their car crashed through the guard rail of a small bridge in the Town of Shandaken and plunged 10 feet into a dry creek bed. One was injured in the plunge, the other in a second mishap within 10 minutes of the first, Kingston troopers said.

In a Fair Corners collision, Alln Rovello, 16, and his brother Lawrence, 17, were reported in fair condition today at Benedictine Hospital.

According to Troopers Richard Ryan and Harry Saunders, the Rovello brothers were passengers in a car operated by Theodore Farley, 21 of Staten Island, which was traveling north on the Big Indian-Oliveria Road in the Town of Shandaken about 1:10 a. m.

Farley lost control of the vehicle which crashed the bridge guard rail and fell some 10 feet into a dry creek bed, troopers said.

The oldest brother, Lawrence, suffered facial injuries, the driver and the other brother reportedly were uninjured in the plunge, state police said.

Trooper Ryan said Allen Rovello climbed out of the Farley car and up onto the bridge to warn an approaching car. As he stood on the bridge waving his arms, he fell through a hole in the bridge roadbed up to his arm pits.

Car Passes Over Him

The other car operated by Harry J. DeSilva, 24 of Middletown, was approaching the bridge from the north, failed to see the dangling youth's head and the car passed over him, Trooper Ryan said.

State police described Allen Rovello's injuries in the second mishap as a concussion, black eye and multiple cuts, scrapes and abrasions.

Farley, the driver of the car which landed in the creek bed, was arrested for reckless driving, pleaded guilty before Town of Shandaken Justice of Peace Edward W. France and paid a \$25 fine.

In a mishap 7 p. m. Saturday, on Flatbush Road, Glasco, three persons were injured and taken to Kingston Hospital.

Discharged From Hospital

Admitted and later discharged were Joseph Kramer, 36, of Louis Avenue, Barclay Heights, who complained of back injuries, and Christopher Shaler, 26, of Ruby, injuries to the right leg, knee and right shoulder, state police reported.

Troopers David Wachtel and Robert Mackey describing the mishap said, Kramer driving his 1957 foreign panel truck with Curry and Shaler as passengers, was proceeding north on Route 32 (Flatbush Road) just south of the Glasco Four Corners, when he was in collision with the 1954 sedan of Albert Caschera of Glasco, parked at the edge of the highway. The Kramer vehicle struck the unoccupied car
